Purveyors to the People,

A Short Talk on Teas.

If there is any one article that goes into family consumption which requires closer attention and better judgment in selecting than any other, it is

TEAS.

The cup which is pleasant, invigorating and healthful from choice, carefully selected goods, becomes unpleasant, harmful and dangerous in cheap grades, heavily loaded with coloring matter, and in many cases badly damaged by contact with salt water in transit. The goods are bought at the buyer's own price, fixed up and sold at a slight reduction from regular prices, yielding a profit many times their full value.

Our A grade teas are the extra fancy firsts, and the choicest in natural style and character of leaf, and rich, full flavor in cup. Tea experts pronounce them the flower of the tea gardens of the east.

WORST FORM ECZEMA

Baffled Best Medical Skill for Eight Months. Cured in Two Months by Cuticura Remedies.

This is to certify that a child of mine had Eczema in its worst form, and which baffled the best medical skill that could be employed here. The little sufferer was wrapped in agony for at least eight months. Six months of that time its suffering was simply untold, then I began the use of the CUTICURA REMEDIES, in two months the awful disease had ceased its vengeance, and my darling boy had rest, and to all appearance the disease had yielded, but I continued the medicine for several months after no trace could be seen of it on any part of his body. The doctors here watched the disease with much interest, and could only say "Well done!" The case was known far and wide, and everybody was much surprised. But thanks to CUTICURA REMEDIES. Could there be anything on earth that would cause a father to rejoice it surely would be when the little innocent one could have such a remedy at hand. (See portrait herewith.)

J. A. NICOLES, Bunker Hill, Ind.

A child was brought to me with chronic eczema that had defied splendid treatment from many good doctors. As a regular M. D., should have continued similar treatment, but thought it useless. So put it on CUTICURAS. The child is well.

WEATHER.

The local forecast for to-day and to-morrow is slightly colder with flurries of snow.

An area of high barometer still covers the country from Chicago westward both north and south. A "high" has replaced the "low" that appeared in the northwest yesterday. It will bring us colder weather for Friday. The temperature throughout the cold region has slightly moderated except in the extreme northwest, where another cold wave is developing. Minnedosa reports 36 degrees below zero. Fair weather prevails west of Chicago, and warmer, cloudy weather with snow east of Chicago.

The maximum temperature in Toledo yesterday was 28 degrees. The minimum this morning was 17 degrees. The total snowfall of this morning was .16 inch.

Shameful Scenes at McKinley's Inauguration.

The Sherman and Foraker Forces Lock Horns and Only the Intervention of the Police Prevents a Free Fight with Possible Murder.

Columbus, Jan. 13.—(Special)—Crowds have come and crowds have gone, says the Columbus Post, but never before in the history of Columbus has her fair name been so brought into disrepute as by the disgraceful conduct of the drunken rowdies belonging to some of the clubs attending the inauguration.

In the hotels, upon the streets and in every conceivable place of a public or semi-public character to which they could gain admission, did they proceed soon after the parade was over to make Rome howl, and give themselves up to drunkenness and rowdyism, even to the extent of laying far in the shade the proverbial reputation of western cowboys and desperadoes. Chief among those who outshone all others in disgraceful conduct were the members of the Lincoln and Blaine clubs of Cincinnati.

The latter wore conspicuous badges bearing the names of Blaine and Foraker as standard bearers in the national campaign and were at every opportunity engaged in the work of booming their ticket.

They were particularly active and loud pushing the claims of Judge Foraker for the vice-presidency and in a short time they became, by frequent visits to saloons, so greatly wrought up in their work as to open the senatorial battle and to denounce John Sherman as having resorted to dastardly means to defeat their favorite.

By this conduct they soon won the admiration and support of many members of other clubs throughout the state until it appeared, about 6 o'clock, as though a great indignation meeting would be called to denounce Sherman methods and demand of the legislature to ignore the decree of the caucus and place Foraker in the position to which he is justly entitled.

Indeed, so strong had this feeling become, and so rapidly was the sentiment spreading, that at 6 o'clock in the Neil house lobby a proposition was made which took like wildfire, to immediately call a mass meeting in the state house yard for that purpose.

At this critical moment for the Sherman people, a few of whom were in the Neil house at the time, the big row above referred to took place.

Members of the Cincinnati Blaine club and their sympathizers from Cleveland, London and other cities, were yelling themselves hoarse for Foraker when John Larkin, a member of the Lincoln club of Cincinnati, and a deputy in the probate court of Hamilton county, realizing the situation, attempted to create a division by shouting for Sherman.

Immediately the Foraker crowd subjected him to such rough handling as to effectually shut off his wind and silence him for a few minutes.

Among the Foraker people were Mayor Mosby and Ed. N. Anthony, both of whom kept rubbing it in upon Larkin and denouncing him as a Sherman boodler until, losing all control of himself, pulled a revolver from his pocket and was about to shoot his tormentors when Tom Edwards, of the Blaine club, seized his arm and other caught and held him while Anthony gave him a terrible beating in the face.

At this moment the Sherman faction began to rally to the support of Larkin and but for the timely intervention of the police a terrible row might have ensued.

It was noticeable that many hands sought there hip pockets and all were wrought up to a high pitch of frenzy indicative of the bad blood engendered by the result of the senatorial contest which in the opinion of many will never be effaced.

TAKES ON NEW INTEREST.

The Baltimore Investigation at Vallejo.

The Doctors Are Now at War and Claim That the Men Died From Lack of Proper Treatment.

Vallejo, Cal., Jan. 13.—A genuine sensation was developed in the Baltimore investigation, a thing entirely unexpected at this late stage of the proceedings. The case had dragged along slowly in the morning session, a number of sailors being recalled to testify as to the soberness of Riggin, Turnbull and Davidson before the riot.

After recess, however, Surgeons Sitt and White, of the Baltimore, took the stand; after testifying to the wounds of the members of the Baltimore's crew, they declared that the death of Turnbull was directly caused by neglect in the hospital where he was carried by the police.

The Chileans refused to allow the Baltimore's surgeons to treat the men, and declined to do it themselves except in a very superficial way. For four days the surgeons vainly begged Judge of Crimes Foster to allow them to remove the sailors to the Baltimore, but not till it became probable that Turnbull would soon die would he grant them permission. The men were taken to the ship, but it was too late for Turnbull. Blood poisoning had set in and Turnbull died five days later.

The surgeons were positive that death resulted from neglect and imperfect treatment in the hospital. The sisters of charity who had charge seemed to regret their inability to help the sailors, but had to obey the orders of their superiors.

From a summing up by the surgeons it appears that, as a result of the mob, two sailors of the Baltimore were killed; five were seriously wounded, being disabled from 9 to 44 days, and 12 received slighter wounds, being disabled from 2 to 8 days. It further appears that if Riggin had not been shot he would probably have recovered, as his knife wounds were not very severe.

TERRIFIC EXPLOSION.

A Boiler at Ironwood, Mich., Creates Havoc.

Ironwood, Mich., Jan. 13.—A terrific boiler explosion has occurred at the North Pabst mine, which shook the entire eastern portion of the city.

The hoisting plant, engine house and mine office were wrecked.

John Hughes a drum-man, was blown 50 feet, death being instantaneous.

John Carney, a pump man, was being lowered into the shaft, when the explosion occurred. The shock broke the cable, Carney falling to the bottom of the shaft into several feet of water. He sustained severe injuries about the head and was unconscious when brought up.

Superintendent Biddle was buried in the ruins, and dangerously hurt, his escape from death being miraculous.

A WESTERN CRIME.

Two Dead Bodies Point to a Tragedy.

Solomonville, Ariz., Jan. 13.—The bodies of a man and woman were found Monday night near Ash Springs. Both were shot twice and their skulls were crushed.

The bodies were not cold when discovered. A 2-year-old girl, with her head badly bruised, was sitting by her mother when found. The woman is supposed to be Hattie Morgan, en route to join her husband at Globe.

The man was not identified. The motive of the murder is supposed to have been robbery.

THEY TORE DOWN THE WALL.

Upper Sandusky, O., Jan. 13.—The January term of common pleas court convened with Judge Smalley on the bench. The court contains 190 civil cases and two criminal. Of the former 49 are for money, 18 for foreclosure, 16 for appeal, 11 for injunction, 11 for equitable relief, 10 for damages, 9 for partition, 4 for divorce, and 3 for bastardy. ARE DANCING THE OMAHA

Indians Working Their Old Game Once More.

More Blankets and a Little Fire-Water is Wanted,

And Unscrupulous Agents Will Help Work Up the Scheme, as It Is the Chief Aim of the Men in These Positions.

Pine Ridge Agency, S. D., Jan. 13.—Everything is quiet here so far as appearance goes, but there is no denying the fact that there is a general dissatisfaction among the Indians, who, as a rule, spent all their money last summer and fall in making ghost shirts and arrows.

There has been a great deal of dancing until the recent cold weather. The Indians claim to be dancing the Omaha, but those who have the best opportunity of knowing say that the dance is a mixture of the Omaha and ghost dance, retaining all the principal features of the latter.

A lot of Indians left here last fall to visit the place where the Messiah made his appearance and have but recently returned, but all the efforts of interpreters have failed to elicit any information from them concerning their trip.

No one anticipates any immediate trouble, but there is a sullenness among those that participated in the hostilities last year that is by no means reassuring.

They are jealous of anything being said or written about their movements, and but recently threatened to boycott a trader who had told some one they were buying so much white cloth for the purpose of making ghost shirts that it was hard to keep it in stock.

In the annuities issued this year there have been no blankets, boots or shoes, owing, it is believed, to the blankets being condemned. But to the Indians' way of thinking, it is another breach of faith, and now comes the land decision of Attorney-General Shields which does not suit the Sioux.

They claim the mixed bloods as their children and declare that if the land is not to belong to their children it does not belong to them and that the government is only letting them claim and hold it by sufferance.

Young-Man-Afraid-of-His-Horses was heard to say in regard to the dispatch: "Not until after I am dead can they take the mixed bloods from us." All the other leading chiefs express similar views upon the subject.

OVERMAN'S TRIAL.

Washington, Jan. 13.—The secretary of war has granted the request of Maj. Lewis C. Overman, corps of engineers, for postponement of his trial by court-martial at Cleveland until Feb. 3.

OHIO WOOL GROWERS.

They Are Against the Democratic Doctrine.

They Have Not Yet Learned That a Protective Tariff Caused the Price to Fall Off.

Columbus, O., Jan. 13.—(Special)—The Ohio wool growers have adopted the following resolutions:

Resolved, That this association condemn the monstrous and ruinous proposition made by members of the house of representatives at Washington to place wool on the free list;

Free wool, whether under cover of reciprocity treaties, or by any means, is hostile to all our agricultural industries and should be condemned by every farmer at the ballot box and by every other practical method;

That the same protection be given mutton, sheep and raw cotton;

That we appeal to the president to see that the laws for the promotion of the wool industry be enforced, and that all officers wanting in capacity for the performance of their duty be dismissed;

That congress be asked to provide an officer in the department of justice to enforce the law relating to imported sheep wool and other fibers;

That a weekly newspaper be established at Washington devoted to political and other interests of wool growers;

That the president of the United States be requested to reorganize the board of general appraisers under the custom laws.

The following officers were elected for the ensuing year: President, Wm. Lawrence, of Bellefontaine; treasurer, O. H. Kling, of Marion; secretary, W. N. Cowden, Quaker City; executive committee, M. H. Rhodes, of Coshocton; J. B. Humphrey, Versailles; John Pow, Salem.

A CRAZY MAN IN COURT.

Judge Gresham Has an Unwelcome Guest.

Chicago, Jan. 13.—Martin McConoby appeared in Judge Gresham's court yesterday and acted in such a strange manner that he was arrested.

He seemed to think that the court officials were trying to beat him out of an imaginary $5,000 which he claimed Jay Gould had paid into the court for him.

JESSE RIDINGS' BRIDE.

An Old Man Buys a Wife at a Very High Figure.

Palmyra, Mo., Jan. 13.—Jesse Ridings, aged 67 years, a wealthy farmer living near Whitehall, Ill., and Miss Julia Fanning, aged 27 years, were recently married in this village.

The bride, by the conditions of the marriage contract, executed just before the ceremony, became the owner of $30,000 and a policy for $6,000 on the life of the aged groom.

A few days since Mr. Ridings gave his son and three daughters each $15,000. This disposes of his entire fortune.

BRUTAL MURDER.

Hamilton, O., Jan. 13.—News has reached this city that at Oxford, this county, a wealthy lady named Horner had been foully murdered by a negro named Henry Corbin.

At the same time the negro fatally injured a daughter, Lizzie, who sought to protect her mother.

TENA DAVIS' MURDERER.

Boston Police Think They Have the Man.

A Voice From the Bridge at Midnight Pleading with "Bert" for Mercy Furnished the Clue.

Boston, Jan. 13.—The Herald this morning says it has learned what it states to be the important clue that led to the arrest of J. A. Trefethen, who is charged with the murder of Tena Davis, of Everett, whose body was found in the Mystic river on Sunday.

It is in effect that a citizen of Somerville, whose word can be relied on, says that he was on the Mystic river in a boat, near the bridge, on the evening of December 23. He heard a cry for help from the bridge and a woman's voice pleading for mercy. He also heard a man's voice and the woman call that man "Bert."

This is the title by which Trefethen was familiarly addressed by his associates. Then the woman began to shriek, sounds were heard as if a struggle was in progress, then followed a splash, a last despairing cry and all was over.

When the Somerville man finally reached the spot where he judged the sounds had emerged from, all was still and no one was in sight.

CAPTURED THE TOWN.

Mexican Revolutionists Open the Ball.

Casas Grande Overpowered and Now in the Hands of Garza's Men—Several People Killed.

Deming, N. M., Jan. 13.—A report reaches this place that the town of Casas Grande has been captured by revolutionists.

Casas Grande is south of Ascension, where a fight took place some days ago. It is said that several men were killed in the fighting which took place.

This report is brought to town by a cowboy who says that the attacking party was a large one and was well armed. Serious trouble is expected at Ascension, where every man is fully armed and where troops are expected to-day from Chihuahua.

A Mexican named Sais, who participated in the Messila riots in 1871, is the leader of these revolutions.

LEEDS IN FLAMES.

A Great Conflagration Now Raging.

Collapse of Railroad Stations and Outside Communication Entirely Cut Off.

London, Jan. 13.—A dispatch from Leeds says that a terrible conflagration is raging there.

The resin, benzeline and soap stores, situated beneath the combined Midland railroad and Northeastern railroad stations at that place, have caught fire, and the approaching collapse of the building is said to threaten to stop all railroad traffic there.

The situation is described as one of great danger.

THE CENTRAL WRECK.

The Railroad Commission Makes Its Report.

Everybody Seems to Have Been at Fault—A Terrible Scoring for the Railroad.

Albany, N. Y., Jan. 13.—The board of railroad commissioners in the matter of the accident on the New York Central & Hudson River railroad, between Hastings and Dobbs Ferry, December 24, 1891, at 8:40, resulting in the death or fatal injury of 13 persons and the more or less serious injury of five others, handed down their conclusions and recommendations:

First—The board finds that the immediate cause of this accident was the criminal failure of Albert Herrick to signal the St. Louis express.

Second—That Augustus Ossman, the train dispatcher, failed to exercise reasonable caution in not notifying Station Master Williams at the Grand Central depot immediately that trains were held at Dobb's Ferry, so that he, Williams, could notify engineers and conductors to be on the lookout.

Third—The board finds that Station Master Williams failed to exercise reasonable caution in not notifying engineers of departing trains that trains were held at Dobb's Ferry after his notification of that fact by Ossman.

Fourth—The board finds that Charles Delanoy, station agent at Hastings, was censurable for not inquiring of Herrick the cause of his (Herrick's) being at the station so that he (Delanoy) could take precautions to warn trains.

Fifth—The commission finds that M. J. Murphy, engineer of the freight train which backed up the track near Sing Sing, causing the original blockade, was guilty of gross carelessness.

Sixth—That the board finds that in consequence of the largely increased number and speed of trains on the New York Central & Hudson River railroad the "open road system" of operating is insufficient to secure the highest attainable degree of safety, and approves of the determination of the company to equip its tracks with the absolute block system, as hereinbefore set forth in the letter quoted from the president of the company, and also to interlock all switches on the main track with distant signals, and recommends that it prosecute the work with the utmost dispatch.

WILL FORCE THE FIGHT.

Democrats to be Active in the House.

The McKinley Bill to be Vigorously Discussed.

Four Sub-Committees to Commence a Diligent Search for Some of the Many Boasted Blessings.

Washington, Jan. 13.—Representative Sherman Hoar, and some of the house democrats, have devised a very ingenious scheme to bring before the public the full blessings of the McKinley bill.

During the summer a sub-committee of the senate finance committee has been investigating the effect of tariff on prices.

For the democrats now to do the same thing would take too long and make the information of practically no use during the coming campaign.

Mr. Hoar and his associates, therefore, decided to attack the bill in detail and by making several committees of the house conduct the investigation simultaneously, get the desired information in a very short time.

With this purpose in view, Mr. Hoar has introduced a resolution directing the committee on manufactures to report to the house, "the effect upon the general manufacturing interests of the present acts of the collection of revenue by means of duties upon imports."

A similar resolution to ascertain the effect upon agriculture has been presented by McKinley, of New Hampshire, and referred to the committee on agriculture.

Mr. Lapham, of Rhode Island, made his resolution apply to labor, and had it sent to the committee on labor, while Mr. Houk, of Ohio, completed the quota by wanting to know the effect of the tariff on foreign commerce, which the committee on inter-state and foreign commerce will have to wrestle with.

If these resolutions are adopted and it is believed they will be, four committees will be engaged in investigating the tariff from different points of view and the results are bound to be interesting.

BIG COAL COMPANY.

Two and a Half Million Company Incorporated.

Santa Fe, N. M., Jan. 13.—The Cerrillos Coal and Railroad company, capital stock $2,500,000, filed a charter with the secretary of state yesterday. The incorporations are: A. G. Taylor, of Chicago; R. C. Kerens, Charles H. Smith, F. M. Hoefle, F. W. Risque, and F. W. Schuarte, of St. Louis, and R. Palen of Santa Fe.

The charter calls for the building of 76 miles of railway line in this county, starting at Cerillous on the line of the Atchison, Topeka & Santa Fe, and running south and west through the coal and mineral fields to San Pedro. Work will be started on the new road within two weeks.

STILL THEY COME.

Another Damage Suit Filed Against the Hocking Valley Railroad.

John Burns began suit in common pleas court to-day against the Columbus, Hocking Valley & Toledo Railway company to recover $30,000 damages for personal injury sustained November 10, 1891. The plaintiff states that on the date mentioned he was in the employ of the Pennsylvania Railway company, and was directed to go and clear the track and road bed of the defendant company and while so doing was struck by an engine of the defendant, which was recklessly and negligently managed by the defendant's agent.

MEXICAN NEWS.

City of Mexico, Jan. 13.—Four men were injured by an explosion in the government powder factory yesterday. Two of them are fatally injured.

The Collima volcano is again showing signs of activity.

Some rioting is reported from the interior of Guatemala, where a strong party favors Reina Barrios for president.

LEFT HIS DEBTS BEHIND.

Gloucester, Mass., Jan. 13.—Wm. H. O'Brien, who has been running a stock broker's office here as a branch of the Metropolitan Stock Exchange, of New York, has disappeared, leaving behind him, it is said, debts aggregating between $15,000 and $20,000. His friends claim that his indebtedness will not exceed $1,000.

MINISTER LINCOLN.

London, Jan. 13.—Mr. Robert T. Lincoln, the United States minister, who is suffering from a slight attack of influenza, passed a good night resting fairly well. His fever, however, remains unchanged.

GOOD USE OF HIS WEALTH.

Springfield, Mass., Jan. 13.—Primus Parsons Mason, one of the most interesting and best known colored characters in the city, died yesterday. He was 75 years old. He leaves a fortune estimated at $50,000 to found a home for old men.

KILLED IN A MINE.

Scranton, Pa., Jan. 13.—John Centan, a miner, was killed, and Frank Ancenti, his laborer, was fatally injured by the fall of a roof of coal at Johnson's Green Ridge colliery yesterday.

DR. GRAVES' CONVICTION.

Belief That the Man Was Not Guilty.

Public Sentiment Is Strongly in Opposition to the Verdict of the Trial Jury.

Denver, Col., Jan. 13.—There is talk now of getting up a monster petition to the governor asking him to commute the sentence of Dr. Graves. Pressure has been brought to bear from several points and when the time is ripe all forces will be united and executive clemency will be sought.

Gov. Routt is a kind-hearted, politic man, and one likely to meet the requests of the people, provided the appeal to his humanity is general. Reports from all points in the state show a general change of opinion in the last few days. Never before in the history of Colorado has a murder trial excited such interest as that of Graves. The women of the state have now taken the matter up and sympathy for the condemned man is spreading.

TO DIE FIGHTING.

A Sweet-Scented Republican Row in Progress.

Griffin Charges That Sherman Bought His Seat,

And Gallagher Calls Griffin a D—d Scoundrel

On the Floor of the House of Representatives.

Charges of Corruption in the Sherman Senatorial Election Are so Common That the Franklin County Grand Jury is Considering Them.

Columbus, Jan. 13.—(Special)—With rumors of boodle as thick in the air as June flies in the summer, and republicans charging republicans with bribery and all manner of corruption, with the Franklin county grand jury in session to consider the charges that Senator Sherman bought his seat in the senate, it is not difficult to see that the blood spots on the face of fair Luna do not portend peace and happiness to the so-called morality party of this state, even though it does furnish much merriment for the democrats in the gallery.

Our own C. P. Griffin has added fresh fuel to the combustible matter and came near precipitating a riot in the lower house.

The sensational episode occurred at the time Mr. Brittain's resolution was under consideration yesterday on Senator Brice, and the principals in the fracas were Mr. Griffin, of Lucas, and Mr. Gallagher, of Cuyahoga.

Friends of the gentlemen made strenuous efforts to keep the matter quiet, but the facts developed.

Mr. Griffin opposed the resolution on the floor and quietly remarked from his seat that Sherman bought his nomination and he could not see the sense of demanding an investigation as to whether or not Senator Brice was an inhabitant of Ohio.

Mr. Gallagher, whose seat is close to Mr. Griffin's desk, and who was a wild and lurid Sherman supporter, indignantly demanded if Mr. Griffin knew his statement to be true?

"Yes," said Griffin. "I know a member of this house who had a note in a bank which the Sherman men offered to take up for him and provide him with a $2,000 position in addition if he would vote for Sherman."

"You know that, do you?" asked Mr. Gallagher.

"Yes, I do."

"Then all I have to say is that both you and the member were d—d scoundrels for not making the matter public," retorted Gallagher.

Griffin flew into a rage and threatened to exterminate the Cuyahoga county member with one sweep of his Sullivan fist.

"Don't call me a d—d scoundrel or I will thump you," yelled Griffin."

"No you won't," replied Gallagher. "I meant just what I said and you should have exposed the whole affair instead of coming into the caucus and playing the baby act in the interest of a secret ballot."

The members that sat in close proximity to the belligerent statesmen poured oil on the troubled waters and peace was declared for the time being.

While all these sensational scenes were taking place on the floor of the house the grand jury of Franklin county was in session and it is reported they are considering the alleged senatorial bribery case.

The talk of bribery and corruption on the part of Sherman has come from republican sources and there is a general impression that several members will be compelled to answer indictments charging them with bribery.

City Editor Kelly, of the Post, and Reporter Landon, of the Press, were two of the witnesses, and both of them refuse to talk. It is expected that a number of correspondents will be called upon to testify as well as members of the legislature.

From present indications republican members will have all they can do to keep their skirts clear.

CHARGED WITH FRAUD.

Five Officers of an Endowment Society in Trouble.

Boston, Jan. 13.—Messrs. Morrison, Hamilton, Gammons, Faber and Barney, the five men arrested yesterday charged with aiding in concealing alleged embezzled property valued at $50,000, were officers of an endowment organization called the Order of the Fraternal Circle, which was bought out by the Order of the Rising Sun and, as alleged, $50,000 was paid from the treasury of the Rising Sun.

Subsequently the Rising Sun became insolvent and in consequence Commissioner Merrill declared the sale illegal. The arrests were made because the officers of the Fraternal Circle refused to turn over to the assignees of the Rising Sun the $50,000 purchase money.

GAVE HIMSELF UP.

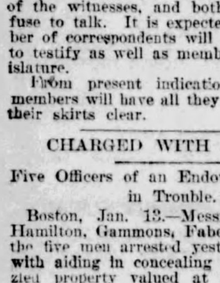
The Hundred Thousand Dollar Necklace Case.

London, Jan. 13.—William Alexander Thompson, described as a lawyer, charged in conjunction with Prince Louis Clovis Bonaparte, a son of the late Prince Lucien Bonaparte, with conspiring to defraud Rosalie Clovis Bonaparte out of a diamond necklace and other jewels valued at over one hundred thousand dollars, surrendered himself into custody to-day, at the West London police court.

Thompson said in explanation, that he was not aware that there was any charge against him until he read of yesterday's proceedings as detailed in these dispatches, when the Prince was charged, on a warrant, with being implicated in the conspiracy referred to.

ANARCHIST ARRESTED.

London, Jan. 13.—Deoganavioff, the notorious anarchist, who has long been wanted by the police of several capitals of Europe, was arrested to-day in Soho, a quarter of this city, upon suspicion of having been concerned in the manufacture of bombs and in the spread of the literature seized by the police when the socialists club at Walsall was raided recently.



To protect the public from fraud and imposition, the *genuine* medicines of Dr. R. V. Pierce are now sold only through druggists, authorized as agents. They are the *cheapest* medicines to use, as well as the best, because in every case, *you pay only for the good you get.* The money is refunded if they fail to benefit or cure.

Being sold on this *peculiar* plan of "value received or no pay," the prices of the *genuine guaranteed* medicines always have been, are, and always will be, as follows:

Dr. Pierce's Golden Medical Discovery, ... $1.00 per bottle.

Dr. Pierce's Favorite Prescription, ... $1.00 per bottle.

Dr. Pierce's Pleasant Pellets, 25c. per vial.

Suspicion naturally and rightfully attaches to any medicines purporting to be Dr. Pierce's, when offered at any other prices than those above given.

'TWILL BE PRESIDENT KNISELY

Of the Northern National Bank, After To-Morrow.

There has been considerable gossip in bank circles as to the presidency of the Northern National bank, and many names have been suggested in connection therewith. The reason for a change is largely because of the uncertain condition of Mr. William Cummings' health, the close application of the past few years almost compelling Mr. Cummings to seek a rest, which, it is hoped by the gentleman's friends, will restore him to full vigor.

To-day it is learned that the responsible position will be conferred upon Mr. Isaac E. Knisely at the election to-morrow afternoon. Mr. Knisely has been a resident of Toledo for nearly twelve years and has established a reputation for conservative and business integrity. As a member of the legal profession, his services will be doubly useful to the bank shareholders, and the selection will undoubtedly give satisfaction. Mr. F. B. Shoemaker and Mr. James Secor will remain as first and second vice-presidents respectively.

MORE ELECTIONS.

Union Savings Bank.

This afternoon the annual meeting of the stockholders of the Union Savings Bank and Deposit company is being held. Shoemaker, Milton Churchill, S. C. Schenck, Geo. G. Hadley, O. S. Brumback, F. T. Lane, T. C. Rowland, A. M. Woolson, Adolph Brand, C. Daudt, Leander Burdick, J. H. Bowman. Toledo Transportation Company.

This afternoon the Toledo Transportation company held their annual election, resulting as follows: Directors—G. G. Hadley, Geo. H. Ketcham, Chas. Hubbard, F. M. Ohl, C. E. Van Deusen. Officers—G. G. Hadley, president; Geo. H. Ketcham, treasurer; F. M. Ohl, secretary; C. Hubbard, manager.

Finlay Brewing Company.

At the election last evening the following directors were elected: Richard Waite, W. W. Jones, Thomas C. Purney, V. H. Ketcham, M. M. Morris. Mr. Purney was chosen president, Dr. Jones vice president, and Mr. Morris treasurer. Mr. Eppstein has withdrawn from the directory, on account of his continued illness. The office of secretary, held by Mr. Eppstein, has been left unfilled.

Farmers' Insurance Company.

The stockholders of the Lucas County Farmers' Insurance and Aid association are in annual session at the court house to-day. Officers were elected as follows: Elias L. Potter, president; George A. Woodward, secretary; M. Lochbihler, treasurer; Wm. H. Strong, adjustor. The board of directors will be elected this afternoon, and the company will then be ready for another year's business.

Rogers Car Axle Box Company.

The stockholders of the Rogers Car Axle Box company met yesterday afternoon and elected officers as follows: V. H. Ketcham, president; George L. Peck, vice-president; Rathbun Fuller, secretary and treasurer.

LOCAL HAPPENINGS.

The stockholders of the Mutual Aid Building and Loan association will meet in annual session to-night and elect officers.

A Noteman has severed his connection with the Noteman-Fisk Gas Burner Co., except as employe, and will give his attention to other patents.

The annual meeting of the Maumee rolling mill stockholders was called for yesterday afternoon, but in the absence of several of them, nothing was done. The old directors and officers will remain in charge.

Louis K. Fork sued August Aubel in common pleas court to-day to recover $66.66. Fork alleges that August Aubel conveyed a lot in Boos' addition to him for a consideration, giving a free and unencumbered title to the same. Later on a mortgage on a note for $66.66 turned up, which Ford says he paid and now he demands reimbursement.

In common pleas court to-day Charles G. Biddison brought action against Milton O. McCaskey et al. to recover $2,090, the amount for which the sheriff levied upon hotel fixtures, the property of the plaintiff, on an order of attachment obtained by the defendants. He says the property was sold, to his damage, to the amount of $10,000. The plaintiff now claims that the attachment was obtained on fictitious and false grounds and has been heard and dismissed.

DEATH OF FATHER KOERLING.

About a week ago Rev. Ignatius Koerling was taken with the grippe. He went to St. Vincent's hospital, where, although he was tenderly cared for, he grew steadily worse and passed away at an early hour yesterday morning. Father Koerling was one of the assistants at St. Mary's parish and was beloved by the parishioners and all who knew him. He was born at Altenbeuren, Germany, in 1838; entered the Society of Jesus in 1885; and was ordained as a priest at Maria Lach in 1868, by Cardinal Melchers. The funeral will take place at 10 a. m. Friday at St. Mary's church.

AN IMPORTANT MOVE.

The Glass Trust to Concentrate Their Works.

Tiffin, Jan. 13.—An important arrangement in the glass manufacturing industry of the United States is conveyed in a communication to the city council of Tiffin to-day by George Beatty, of the firm of A. J. Beatty & Son, the managers of the large glass works located here.

He announced that the Tiffin establishment had entered the United States Glass company, composed of nearly all the largest plants in the country. Advices had come to him from the officials of the trust at Pittsburg that it is the intention of the company to ultimately concentrate the entire making of glassware into two large factories, one in the east at Pittsburg and the other in the west.

This notification from the headquarters further stated that the Messrs. Beatty's factory would be selected as it was one of the most extensive in the company and was situated very favorably with respect to fuel supply.

Mr. Beatty was asked what would be the result if the natural gas supply became exhausted. He said in that case they would resort to oil, which was about as cheap and convenient. Even if this should prove inadequate he could obtain slack coal from the Hocking Valley mines at 53 cents per ton on cars at his works.

The Pennsylvania slack is unfit for this purpose and he had a decided advantage over Pittsburg manufacturers in being 250 miles nearer this last resort.

$100,000 FIRE.

Cleveland, Jan. 13.—The York power block, on Center street, near the Central viaduct, was totally destroyed by fire late last night. The total loss is estimated at $140,000. Among the principal losers are the Champion Safety Lock company, the Kran & Doty Manufacturing company and the National Iron and Wire company. The Cleveland Ship Building company's establishment was also slightly damaged.

Sherman Elected on Joint Ballot.

Two More Offices Created at a Salary of Five Dollars a Day—The Canals—General Gossip.

Columbus, Jan. 13.—(Special)—Senator Hildebrand introduced a bill to-day to regulate the manufacture of dynamite outside of municipal corporations.

It prohibits the manufacture and also prohibits the storing of such explosive in any quantity exceeding one hundred pounds within eighty rods of any occupied dwelling or public building outside the limits of a municipality, and makes it the duty of the township trustees to enforce the law, and imposes a fine and imprisonment for its violation.

Mr. McMaken introduced a bill in the senate creating two more officers, the same to be known as proof-readers of all enrolled bills at a salary of $5 per day.

The senate took a streak of honesty today and defeated a house bill providing for the purchase of revised statutes at $7.50 per set.

The democrats claimed the same could be purchased for one-half that money and with a few republicans defeated the bill.

The house gave the state board of charities a black eye this morning while considering Mr. Cunningham's resolution allowing the use of the hall for three nights. Nearly all were opposed to it, so it was defeated, and will go elsewhere to hold their session.

B. F. Allen, colored, of Hancock county, who was elected engrossing clerk, resigned to-day on account of inability to perform the duties of that office. His son, C. B. Allen, was appointed to the place made vacant.

The house this morning spent nearly one hour and a half discussing the proposition of adjourning every Friday at noon until the following Monday afternoon at 4 o'clock.

Many members wanted to return to the old system of bi-weekly adjournments, but were outvoted.

Speaked Laylin laid before the house the papers in the contested election case of W. H. Rawlen, republican, against B. F. Weybrecht, democrat, who now holds the seat. All were referred to the committee on elections.

Canals.

In former dispatches from here it was stated that the canal system of the state was in in a very bad condition and that something should be done to save the water highways to the people.

This question will be opened up shortly by Senator Gear who is now preparing a ship canal bill. It will provide for the appointment by the governor of a commission of practical engineers who shall examine and report upon one or both routes from the great lakes to the Ohio river. The first route proposed is from Toledo by the Miami and Erie canal and the other from Cleveland to Dresden, then across the Muskingum river. If either or both of the routes are selected the author says that the railroads will have competition for freight and pleasure parties eight months in the year and that rates will be so low that railroads will gladly try to accommodate the people, instead of trying to extort high rates. Senator Guyer made a move in his work to recover canal lands for the state by the following resolutions which he offered for adoption.

Relative to an investigation of the claims of title and right of occupancy by certain persons and corporations of a portion of the Miami and Erie canal in Cincinnati.

Be it Resolved, By the senate of the general assembly of the state of Ohio that the president of the senate appoint a committee of five to investigate and report to the senate as early as possible by what authority, if any, persons or corporations now claim title and occupy state lands in the city of Cincinnati, between the east side of Broadway and the Ohio river, on the line formerly known as the Miami and Erie canal bed, banks, etc., and that the governor, the board of public works and the board of canal commissioners are hereby requested to furnish said committee all the necessary information bearing on this question, to be found in the records of their respective offices. In 1863 the legislature passed a bill giving to the city of Cincinnati for sewerage and highway purposes all of that part of the bed of the Miami and Erie canal that lay between the east side of Broadway and the Ohio river. For several years past the railroads have been encroaching on this property until now, the whole plant has become one complete web of railway tracks. Under the law passed it could not be used for any other purpose and the legislative body of that city, by whatever name known, had no authority to give it away for any other uses but that contemplated in the law, hence it will revert to the state unless some compromise is made by authority from the legislature.

The Joint Ballot.

John Sherman came into the city with a blizzard this morning, and drove to the Neil house, where he is now quartered, and surrounded by a large number of government officials, as well as those desiring to secure places, and friends of those who voted for him for senator, gradually came to the front to see what good positions they could secure at a good round salary without doing much work.

Many were put off to some future time, when he would have time to examine the book and see what places could be easily secured from Harrison.

At 12 o'clock members of the senate appeared within the hall of the house and took seats as members of the joint convention to declare the result of senatorial election.

After reading of journals of both branches relating to the vote as cast in their respective chambers, Lieutenant-Governor Harris announced that John Sherman, having received a majority, was declared elected senator for six years from March 4, 1893.

On motion the following committee was appointed to wait upon and escort him to the hall: Messrs. Lampson, Von Seggern, Van Cleaf, (senators); Griffin, Clark, Allaman, Boesel, Winn, (representatives).

In a short time his tall form came stalking in ahead of the committee. He was received with a slight clapping of hands. After being introduced by President Harris he apologized and said he would read what he had to say, and it was as follows:

"Senators and Representatives—One week ago I had the pleasure of thanking my political friends in the general assembly for their kind partiality, and now I have to express my sense of duty and obligation to the whole assembly for my formal election for the sixth term as a senator oft he United States for the state of Ohio.

"My thanks are due to partial friends but my duty is to all the people of Ohio as well as in broader sense, the people of the United States. By our admirable system of government we have 65,000,000 people united in one nation, armed with all the great powers essential to a strong government, resting upon free and unrestricted manhood suffrage, but with powers so limited that it cannot impair or affect the liberty of our people.

"We have numerous state governments, each indpendent of the other with full legislative, judicial and executive powers to protect and foster the property and domestic rights of its people, having no master except the will of a majority of its citizens.

"We have local municipal government, of county, city, town and school districts, securing home rule to every community, however small, all resting on the family as the unit of social life.

"All the powers of these governments are held in trust for the people and one delegated to individuals chosen by the people, and no man in an official position, from a constable to a president, shall forget for a moment that he is employed to render a specific service for the common good and not for his own.

"The safety and honor of all, both state and nation, depend on the individual and independent judgment of the people.

"This power of the people is the greatest conservative principle of our institutions. There is no room in our country for a king, a ruler or a boss. Each lawful voter should have an equal and unquestioned voice in all primary assemblies, and it is the duty as well as the right of every citizen to participate in every election, and to share in delegation in every power, however small, entrusted to any individual.

Any disregard to the popular will should be resented as an insult. The frequent and sudden changes of party ascendancy in Ohio show that our people are ready at all times to check any neglect or disregard of their will.

"In a republican government, the only means to ascertain the popular will is by party organization. It is in this way great principles can be formulated and submitted to the people, but parties are formed for the people and the people are masters of parties.

"It is the first duty of each party to see that neither corruption, violence, fraud nor domination prevail in its ranks, or if it fail in this, it is the first duty of the people, without regard to party, to correct the error.

"On party questions the people may honestly divide and maintain their opinions with zeal and organization.

"Such questions have divided our people since the beginning of the government. They constantly arise by the progress of events and by honest changes of opinion on questions that rules into the domain of party politics.

"If left to free discussion and honest methods, the decision of the majority of the people, expressed either directly by them or by their representatives in congress or the state legislature, is the best standard of what is right that has yet been devised by man.

"I believe in political parties. I consider it no reproach to be called a partisan. A sagacious politician said that in great matters he voted with his party for principle and in small matters for discipline. But fidelity to a party must always be held subordinate to legal allegiance to one's country, measured by the conscience of every voter.

Nearly all political questions that divide parties arise out of national politics."

He closed by thanking the members for voting for him and remarked that in voting for Sherman they had obeyed the wishes of their constituents.

Notes.

Representative Strock yesterday afternoon introduced a bill providing for female representation on board of trustees of children's homes.

The county commissioners of the state met here yesterday and will be in session for three days. The annual election of officers occurs this afternoon.

Mr. Wydman, of Hamilton county, has secured the passage of the first bill through the house bouncing a democrat out of office, by taking the appointment of stationary keeper from the clerks of courts of that county and placing it in the hands of republican county commissioners.

The Alliance Men Vote with Republicans.

An Interesting Discussion to Take Place in the House To-Morrow Afternoon.

Washington, Jan. 13.—In the house, Mr. Lynch introduced a bill to make Ashland, Wis., a postoffice delivery. Mr. Bland offered a resolution directing the secretary of the treasury to inform the house if any time since the 4 1-2 per cent. bonds became due there has not been money enough on hand to pay them, and if there has been money on hand why he has assumed to continue them at 2 per cent. Agreed to.

Saturday, the 30th, was fixed as a day for eulogies upon the late Mr. Houk.

January 16 was set for the consideration of the printing bill.

Mr. Watson, of Georgia, introduced a bill to cover into the treasury the $100,000,000 gold reserve.

Mr. Holman offered a resolution against bounties and subsidies, and in favor of general economy.

He demanded the previous question, which was supported by a vote of 105 to 54. There was considerable excitement. The previous question was put, resulting yeas 154, nays 80, the alliance men voting no.

Mr. Holman asked unanimous consent for an hour's debate on each side. Mr. Reed wanted two hours on a side and Mr. Holman consented. The debate on the resolution was then postponed until to-morrow.

Coast Defenses.

In the senate Mr. Gordon expressed his disapproval of the bill appropriating $100,000,000 for coast defenses. He thought the country was in more danger from extravagance than from a foreign foe. Mr. Paddock reported favorably from the committee on agriculture his pure food bill of last congress.

Mr. Dolph resigned from the chairmanship of the committee on coast defences, retaining his membership. The chairmanship will be filled later.

Mr. Mitchell called up his resolution instructing the committee on the judiciary to formulate a measure to relieve the court of claims.

Mr. Hoar, chairman of the judiciary committee thereupon introduced a bill on that subject.

A FAIR ATTORNEY.

Alas! the world has gone away
Since Cousin Lillian entered college,
For she has grown so learned, I
Oft tremble at her wondrous knowledge.
Whene'er I dare to woo her now
She frowns that I should so annoy her,
And then proclaims, with lofty brow,
Her mission is to be a lawyer.

Life glides no more on golden wings,
A sunny waif from El Dorado;
I've learned how true the poet sings,
That coming sorrow casts its shadow.
When tutti-frutti lost its spell,
I felt some hidden grief impended;
When she declined a caramel
I knew my rosy dream had ended.

She paints no more on china plaques,
With tints that would have crazed Murillo,
Strange birds that never plumed their backs
When Father Noah braved the billow.
Her fancy limns, with brighter brush,
The splendid triumphs that await her,
When in the court a breathless hush
Gives homage to the keen debater.

'Tis sad to meet such crushing noes
From eyes as blue as Scottish heather;
'Tis sad a maid with cheeks of rose
Should have her heart bound up in leather,
'Tis sad to keep one's passion pent,
Though Pallas' arms the fair environ;
But worse to have her quoting Kent
When one is fondly breathing Byron.

When Lillian's licensed at the law
Her fame, be sure, will live forever;
No barrister will pick a flaw
In logic so extremely clever.
The sheriff will forget his nap
To feast upon the lovely vision,
And e'en the judge will set his cap
At her and dream of love Elysian.

DRS. FRANCE AND OTTMAN, after years of experience, have discovered the greatest cure known for weakness in the back and limbs, involuntary discharges, impotency, general debility, nervousness, languor, confusion of ideas, palpitation of the heart, timidity, trembling, dimness of sight, or giddiness, diseases of the head, throat, nose, or skin, affections of the liver, lungs, stomach, or bowels—those terrible disorders arising from the solitary vice of youth—and secret practices, blighting their most radiant hopes or anticipations, rendering marriage impossible. Take one candid thought before it is too late. A week or month may place your case beyond the reach of hope. Our method of treatment will speedily and permanently cure the most obstinate case, and absolutely restore perfect manhood.

TO MIDDLE-AGED MEN.—There are many from the age of 30 to 60 who are troubled with frequent evacuations of the bladder, often accompanied by a slight burning or smarting sensation, weakening the system in a manner the patient cannot account for. On examination of the urinary deposits, a ropy sediment will be found, or the color will be a thin or milkish hue. There are many men who die of this difficulty, ignorant of the cause, which is a second stage of seminal weakness. We will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

DISEASES OF WOMEN.—We have a special department, thoroughly organized, and devoted exclusively to the treatment of diseases of women. Every case consulting our specialists, whether by letter or in person, is given the most careful and considerate attention. Important cases (and we get few which have not baffled the skill of all the home physicians) have the benefit of a full council of skilled specialists. In treatment of diseases peculiar to females, our success has been marked, over two-thirds of our patients being ladies, old, young, married, single, rich and poor. Our method is entirely free from objectionable features of the general practitioner, namely, "Local treatment." We seldom find it necessary. We prepare remedies, constitutional and local, as the case demands, and instruct ladies how to treat themselves.

A COLUMN OF SMILES

A Misunderstanding.

A well dressed man, with his hat tilted back on his ruffled hair, and an excited look in his eyes, entered Devoe's art store, at 101 Fulton street, on Wednesday afternoon, and stalked up to the counter behind which several clerks were standing. The man slapped his hand imperatively on the counter. "I want a quarter 'v' a Million," he cried, "and I want it quick."

The clerks turned pale and stared at the stranger. A porter slid quietly to the door to get a policeman. The well dressed, but excited stranger stared at the clerks in astonishment.

"What the dickens is the matter with you fellows, anyhow?" he cried. "Can't I get a quarter 'v' a million without all of you having fits?"

"Pray, sir, don't get excited," said a clerk, patting the man on the arm. "The porter has just gone after it. We can't get so much money in a second, you know."

The stranger looked thoughtful a moment, then laughed, and the laugh gave the clerks another unpleasant shock.

"Ha! ha!" said the stranger; "I see, I see. Don't get alarmed. I merely want paint—paint, not cash. A quart of vermillion paint."

The clerks recovered their self possession: "I beg your pardon," said one, "but you talked so fast that it sounded as if you had demanded a quarter of a million. We thought you meant dollars."

The stranger got his paint and the clerks went out and treated themselves.—New York Sun.

He Played in Luck.

A nervous little man in the hall of the chamber of commerce building was telling of a daring robbery on Christmas night.

"Why, they held me up, and took my watch, my money—there was only 60 cents—and my knife. Boldest thing I ever saw. Right on Halsted street, too. Just think of it, before midnight at that!"

Then with an impressive wag of his head, he added:

"It's a good thing I didn't have my revolver, I tell you."

"Why so?"

"Why so? Why, confound it all, man alive, if I'd had my revolver, they—they'd have taken that too."—Chicago Inter-Ocean.

Why He Wasn't Jealous.

Fogg—I think that Brown is about as indulgent a husband as there is going. He went home last evening and found his wife hugging and kissing a bald-headed fellow and didn't make a bit of fuss about it.

Mrs. Fogg—Then all I've got to say is, the more fool he! Why didn't he kick the old rascal down stairs?

Fogg—O, he wasn't so very old; quite young on the contrary. And besides, what would you think of a father who kicked his first and only baby down stairs? —Boston Transcript.

Miss Mattie Was Not There.

Pretty Mattie Fake was at one time the only female station agent on the Southern Pacific road. The road decided to uniform all its agents, and the contract for making the clothing was left to the Cowie Brothers. In order to expedite matters Ned Cowie sent the following telegram to all the agents along the line:

"Be on the platform when No. 19 passes, with nothing on but your pants and shirt."

Cowie was thus enabled to measure the candidates in short order and pass on. When 19 pulled into Banning, Cowie jumped off, looked around and said: "Well, where's the agent?" A stalwart youth, who happened to be Miss Fake's brother, stepped up and asked if he was the man who sent the agent a telegram. Cowie answered in the affirmative and the fellow started to climb him. It took half an hour to explain matters to young Fake, but everybody laughed so over the story that the company decided to let its country agent continue to wear overalls. —Banning Herald.

A Business Arrangement.

A young gentleman took an overcoat to a would-be aristocratic establishment to have it cleaned and repaired. After some figuring on the part of the clerk he was told it would amount to $13.20

"All right," he said. "And would you be willing to take the overcoat as part pay when it's fixed?"—Harper's Bazar.

The Night Editor at Home.

There is a story told of a veteran night editor who, for some reason, had a couple of days off. For years he had reached his home at about six o'clock in the morning, slept until late in the afternoon, and been obliged to rush off to his work. His children naturally saw but little of him. On this occasion he found it necessary to correct his youngest daughter for some flagrant breach of discipline. The child rushed to her mother, flushed with indignation:

"Mamma," she exclaimed, "that man wiv whiskers that sleeps here day-times 'panked me.—Drake's Magazine.

One Way of Serving

John H. Curtis, of Butte, Mont., tells this story of the early days in that city, says the San Francisco Argonaut.

"The first meal I ate in this place was at a restaurant where they charged $16 a week for board. The waiter was a half-breed Mexican. He came into the room with a big revolver and a bowie knife buckled around him.

"In one hand he carried a coffee pot and in the other a tea pot. When he reached the door he shouted: 'Cups up!' meaning those who wanted tea or coffee should turn up their cups, which were placed on the table tops down in order to keep out the ants.

"One chap, a new man, called out: 'Waiter, please bring me some meat. The waiter put down his coffee and tea, and, hauling out his revolver, shouted: 'What infernal idiot's callin' for somethin' out'n his turn?' A tragedy was averted by the new man jumping out of a window."

Why the Boys Laughed.

"Billy Gogenheimer, you are too stupid to sit with the rest of the boys. Come up here and sit along side of me," was the remark of a Harlem teacher.

One of the boys in a distant corner whispered to another boy, and they laughed, whereupon the teacher called:

"Don't you imagine I can't hear what you say? My ears are long enough to reach clear across this room."

Then the boys did laugh.—Texas Siftings.

FORSYTH RELIEF CORPS

Installs Its Officers for the Coming Year.

A Beautiful Badge Presented to the Retiring President, Mrs. Annie E. Howe—The Corps is Prospering.

Forsyth Relief corps held its annual meeting on yesterday afternoon at G. A. R. hall, the circuit court kindly giving the ladies the use of the room for the afternoon. The reports of the officers and chairmen of committees show a good year's work accomplished.

The number of members in the corps is 175, 22 having been admitted during the year, while three have been lost by death and several in other ways.

The total amount expended in relief during the year was $1,290.13, besides $15 for Christmas presents and $25 to Dr. Kitchen to use in his work among the sick.

The relief committee, including the chairman, has made 456 visits during the year; 75 families having an average of four or five members to each family have been supplied with clothing. Many have been helped in other ways, and delicacies have been furnished those who are sick. At Thanksgiving and Christmas all were remembered, including 27 orphans of soldiers at the Lucas County Children's home. Donations have been sent to the various homes at Xenia, Sandusky and Geneva.

The corps wishes to extend thanks to a generous public from whom it receives many favors in many ways, and would be glad to mention each one were it possible.

After the reading of the reports Mrs. Howe, who has served as president of the corps for two years, made a few parting remarks to the members, and as she turned to proceed to the installation of the new officers, Mrs S. E. Nicholas stepped forward and, with an appropriate address, presented her with an elegant gold badge as a testimonial of the regard of her sister members, which was accepted with thanks and the assurance that it would always be cherished as a souvenir of happy associations. The newly elected officers were then installed by Mrs. Dr. Edson, and Forsyth corps enters upon another year of its beneficent work.

On the horizontal gold bar of the badge presented Mrs. Howe is engraved the word "President," a small pendent bears the monogram F. C. and L. (Fraternity, Charity and Loyalty); the large pendant is a Maltese cross, in Etruscan gold, bearing the monogram W. R. C. in red, white and blue enamel, with a solitaire diamond in the center. In fine letters on the arms of the cross, is engraved "Forsyth Relief Corps." The inscription on the back reads: "Presented to Annie E. Howe, by the Ladies of the Relief Corps, Jan. 12, '92." The gift is a beautiful one, indicative of the appreciation of the corps for a faithful officer and a member whose interest in and work for the corps is always unflagging.

WASHINGTON CHAT.

River and Harbor Committee at Work.

Chicago and Detroit Will Go to the Capital to Urge Their Wants in Person.

Washington, Jan. 13.—(Special)—Congressman Outhwaite has introduced a bill to grant to the Norfolk & Western railway the right to enter the District of Columbia. If th's bill passes it will give another route from Columbus to Washington.

All members of the vessel owners' association who were here, except Capt. McKay, have left for home.

There is a difference of opinion between the light house board and the vessel owners, regarding the location and maintenance of lights and Capt. McKay, who will remain here for a couple of weeks, is confident of securing what they desire.

The river and harbor committee is now allotting time and giving hearings to delegations daily. Most of the delegations who have appeared have been from the east. Chicago and Detroit will appear in a week or so.

No application for a date in which to appear has come from Toledo. As an effort will be made to have the bill ready to report by March, it behooves those interested to take time by the forelock.

ARMORY BOARD MEETING.

A special meeting of the board of trustees of the Toledo armory was held yesterday afternoon for the purpose of electing a successor to President Smead, resigned. There were present, P. H. Dowling, Geo. H. Ketcham, W. J. Colburn, Chas. Milburn and J. S. Harbeck. Mr. Ketcham, who was appointed by Gov. Campbell to fill the vacancy caused by Col. Smead's resignation, was sworn in. P. H. Dowling was unanimously elected president of the board. Bids for the wiring of the armory for electric lighting were opened and the contract was given to Emil Grah. A committee was appointed to look into matter of furnishing.

Col. Smead discharged the duties of his office in a most creditable manner, and on motion of Mr. Colburn a resolution was adopted tendering to that gentleman the thanks of the board for his able assistance and his liberality in providing a place of meeting for the board.

Mr. Ketcham then proved himself a worthy successor to Col. Smead by offering the board his office as a place of meeting, which offer was accepted.

CRAZY MAN'S DEED.

He Stabbed His Wife to Death with a Pair of Shears.

Cincinnati, Jan. 13.—Last night Frank Rutherford, a carriage painter, living at Commerce and Elm streets, stabbed his wife under the left shoulder blade with a pair of shears, killing her almost instantly. The blades penetrated the heart and the woman died before she could make a statement. Rutherford has been suffering from la grippe and it is said the disease had affected his mind. He comes from a respectable family of Columbus, and is a brother-in-law of ex-Representative A. D. Heffner, of that city.

IN TRADING CIRCLES

Wheat Quotations for the Day—Price Current for Produce and Other Articles.

The Daily Round Up.

France.—Paris, Dec. 29.—The weather remains cold and wet. The country markets remain in the same quiet state. The supplies are small, but millers buy very sparingly, owing to the difficult sale of flour. The general tone, however, seems to be firmer. At Marseilles business in wheat was at a standstill to-day. Nantes also was quiet and Bordeaux dull.

India.—Bombay, Dec. 12.—The past week has been a very unsatisfactory one in most branches of Bombay business, both import and export. The demand for wheat, old and new, having fallen off in Europe, dealers are unable to sell at the full rates their goods cost them, and are not disposed to make any great reduction. Supplies, however, keep large for the time of year.

Russia.—It is reported that Russia intends to allow the export of flour, on condition that millers import an equal quantity of wheat. The object is that Russian millers, especially at Odessa, may retain their foreign trade with Egypt, Turkey and England.

Northwest Wheat Stocks.

The Northwestern Miller reports the wheat in private elevators in Minneapolis at 1,566,000 bus., or a decrease of 145,000 bus. from last week. The aggregate stock at Minneapolis is 9,924, 844 bus., against 9,894,728 bus. one week ago. The Market Record reports the stocks in country elevators of Minnesota and the two Dakotas at 11,872,300 bus., against 11,667,000 bus. one week ago—an increase of 194,700 bus. The aggregate stocks in the three states are 29,149,799 bus., against 28,470,036 bus. last week—an increase of 679,163 bus. The stock one year ago was 22,521,000 bus.

The receipts of wheat to-day at Minneapolis and Duluth are 164,814 bu. and at five other principal western points 161,142 bu. which is growing very light.

The export clearances yesterday at four Atlantic ports were, wheat 402,495 bu. and flour to an aggregate of 475,000 bu. The exports of corn were 445,760 bu and of oats 28,593 bu.

English markets as reported herein are dull and lower for wheat. Corn in London is easier, and in Liverpool strong.

The markets for wheat on this side of the ocean made quite a sharp turn this morning. It was, of course, the result of a conviction that prices had receded sufficiently—that the break of 10c was about enough and a reaction was most natural. There certainly was nothing in the early cables to stimulate better values, and so the market just stimulated itself. Whether it is fair to expect a gradual improvement from about 90c, of course will depend upon the effect of this little flurry on the markets abroad. It is sure as anything that has not happened, that if our markets maintain an advance in prices foreign markets will also appreciate.

The outward movement from the country, one week with another, continues large, and receipts are very light on such a crop. The Pacific coast stock of wheat is reduced in a week 1,447,000 bushels.

Bradstreets' report of the visible supply makes wheat decreased 138,000 bu., corn increased 1,020,000 bu., oats increased 191,000 bu. Pacific coast wheat decreased 1,447,000 bu.

Corn has been fairly maintained, and western prices have been better. Large dealers at Chicago are very strong on the market for May, and advising purchases.

Liverpool is quoted as closing lower on wheat futures, corn higher. Paris is also quoted lower.

In New York January wheat closed 1 7-8c and May 1 3-8c higher. January corn 1-8c up. May corn and January oats steady.

In Chicago January wheat closed 1c and May 1c better. January corn 1-4c and May 3-8c higher. January oats 1-2c higher.

In Toledo the trading in wheat has been less active with some hesitation in following the market upward. Traders have become accustomed to see markets break, near the close, every day, and we had a little of that kind of experience today, as after an advance of 1 3-8c the market lost 3-8c but closed at a gain on May wheat 1 1-4c higher. On the call May sold at 95 3-8c to 95 5-8c. After the call at 95 1-2c to 96 3-8c down to 96c and closed at 96 1-4c bid.

Cash wheat was in fair request. No. 2 soft sold at 90 1-2c to 91c and closed at 90 3-4c, a gain of 1 3-4c; rejected No. 2 at 76c; No. 3 soft about 88c.

Corn—Sales light. No. 3 at 40c; No. 3 yellow at 40 1-2c; at close one car No. 3 sold at 39 1-2c. Oats and rye, no trading. Dressed hogs, $4 75. Bran, $16 00. Middlings, $16 00.

Clover seed—Transactions light. No sales of prime. Market about steady and quiet. No. 2 at $5 20 to $5 40.

The stock market was moderately active this morning and the business done was more evenly distributed than of late. The chief interest centered in about half a dozen stocks. The opening was strong with prices from 1-8 to 1-2 per cent. higher than last evening's figures. In the early trading K. & T. pfd advanced 3-4 per cent., but the remainder of the list while firm, made very little further improvement. After the first call there was some selling which caused the whole list to weaken, but toward 11 o'clock a strong tone was again developed with N. E. and Mo. Pac. in the lead. Prices for the general market at 11 o'clock were slightly higher than those of yesterday. The features of the second hour were a drop in sugar trusts from 85 3-4 to 84 1-2, a decline in Nor. Pac. pfd of 1 per cent. and a decline of 2 per cent. in Rich. & W. P., which fell from 73 to 71. The general railroad list was better maintained and prices were slightly higher, as a rule, at 12 o'clock than yesterday's closing. At this writing the market is dull and featureless.

JOHN TOULERTON'S DEATH.

The Belton, Texas, Daily News contains an account of the death of John J. Toulerton, of the Lake Shore. He was 27 years of age, and has been a resident of Texas for the past 10 years. The News introduces its article with the following paragraph:

"Death loves a shining mark," and on this particular occasion the mark was one of unusual lustre, John J. Toulerton, one of Belton's very best young men, in fact the state or the United States had no better. He was held in the highest regard and esteem by everybody, always pleasant and agreeable, accommodating in his business, and no matter when or where you found him, you found a gentleman. Belton never had a citizen who was more universally popular, than was Mr. Toulerton, and the News but voices the sentiment of the entire community when it says: we mourn.

TOLEDO, OHIO, JANUARY 13, 1892.

Even the wicked democrats cannot rejoice at the chapter of "harmony" in republican ranks that comes from Columbus to-day. As citizens of Ohio they too deeply feel the disgrace.

And now it is certain that the Chilean affair will never be settled. The doctors disagree as to whether the knives of the assassins, or lack of proper treatment afterwards, killed the sailors of the Baltimore.

It is rather singular that neither of the Toledo members of the house is placed on the committee on municipal affairs. Toledo is one of the big cities and certainly should have representation on that committee.

The organs go on staining their pages gory red with hatred and suspicion of the English, and the English tantalize us with their patronizing airs and go on buying up our breweries, flouring mills mines and ranches. Will there be a finale?

Some malicious person having charged that Representative Daugherty of Fayette voted for Sherman for a bribe the member rose to a question of privilege yesterday and denounced the charge as false in every particular. He made a manly speech and urged the fullest investigation.

Jefferson county, Ala., in which is situated the city of Birmingham, has shown phenomenal growth in the last decade. In 1880 its railroad mileage was 94 miles; in '90, 461 miles. In '80 the yield of coal was 182,394 tons. In '89 this had mounted to 2,305,383, and is still growing. In '81 there were two banks in the county; in '91 there were 19.

And now it seems it was not Senator Peffer at all who introduced the bill for the relief of the agricultural classes in Indiana, but Representative H. W. Taylor. The latter gentleman writes a letter to the Indianapolis Sentinel, in which he indignantly protests against the credit for his bill being given Senator Peffer by that journal. Whereupon the Sentinel apologizes—to Senator Peffer.

The London Times' correspondent has published his letters from Chile in a book. The paragraph that interests us runs like this:

"I went to look at the American cruiser Baltimore, which had recently arrived. I found the officers, from the captain downward, very distinctly partisans of the government. They regarded the alleged causes of the revolution as mere pretexts, and believed that the whole affair had been worked up by agitators on behalf of the European nitrate syndicate."

A little ruction between Secretary Noble and the president on Indian affairs is imminent, caused by the divulgences of a certain Mr. Brown, an Indian trader of Indian Territory, who reports swindling practices by government agents. Mr. Brown went to Washington purposely to enlighten the secretary, but the president will not permit any meddling with his Mr. Morgan if he can help it. It must be remembered that this is a very ticklish time for a president with an office-holding constituency.

Poor Poland; what a doleful year she is bound to have of it. It is decreed at Warsaw that during the year '92 all the women and children as well as the men shall wear black and nothing but black, mourning for the freedom that shrieked when Kosciusko fell. It is the one hundredth anniversary of the partition that followed the war of 1792, and the Russian yoke galls as fiercely as ever and the mines of bleak Siberia tell tales of enforced submission. Will the pall in which Poland elects to wrap herself move the Russian heart at all to pity?

The Philadelphia Times has a very candid editorial article on "Political Theft." The stealing of the presidency in 1876, which demoralized the body politic more than all the overt acts of partisan politicians since the foudnation of the government; the recent theft of the governorship and legislature in New Hampshire and of senators in Montana, of the governorship in Connecticut and in Nebraska, and the clever manipulation by Gov. Hill to correct an outrage that amounted to a theft—these are reviewed at length, and the conclusion is reached that, by reason of this prostitution of public faith and honor, the republic is in grave danger. It is something to think about.

The question of England's control of Egypt seems pretty well settled. The natives themselves elect to have it continued. It is said the country is enjoying the greatest degree of prosperity it has known since the days of the Pharaohs. Under English rule the courts of justice have been well established, cruel laws have been modified or abolished, the system of forced labor has been done away with, taxation reduced, material improvement in the way of canals, dams, roads and bridges are everywhere noticeable, and the treasury shows a large annual surplus. With this condition of things there is no desire for a change to French domination. The succession of the Khedive's son is peaceably effected and no change of policy is foreshadowed.

In the selection of the house committees Speaker Laylin gave Mr. Flickinger only one place—the chairmanship of the committee on Public Works. It is a very important committee, and the silver-haired orator is just the man for chairman, as he served six consecutive years as a member of the State Board of Public Works. Mr. Griffin is chairman of the committee on Insurance and is also a member of the committees on Railroads, and Sailors' and Soldiers' Orphans' Home—three very important committees. Mr. Heller is a member of two committees that will have little to do—Ditches and Drains and Public Ways. Possibly Griffin was instrumental in pushing Mr. Heller to the rear. Having used him in the senatorial contest he has no further use for the statesman from Whitehouse.

Prince Collar-and-Cuffs and Princess Mary are "all right" if parliament did decline to dower them. It has become fashionable and all England is sending in gifts to the royal pair. There is no law to restrain untitled and common people from aristocratic indulgences on an occasion like this. And yet it is said the young princess is not quite happy. The queen has decided to furnish the trousseau, and her taste in dress doesn't at all coincide with that of Mistress Mary. It is well, perhaps, to have a little romantic worry, else the bride-elect, who may one day be queen of England, might be surfeited with sweetness and die of suffocation from good fortune.

When Rosa Bonheur sets her dog on interviewing tourists or has her servant show them the way out, she knows which is the high road to most enduring fame and elects to walk therein. She has just finished the largest animal picture ever painted on canvas. It represents ten life-size horses treading out grain on the threshing floor, as is yet the custom in some parts of southern Europe. She has been occupied with the work three years. And it's not alone for fame that she wears the comfortable suit of a man and drives the curiosity seekers from her doors. She has refused an offer of $60,000 for her picture.

The New York idea is to talk large about monuments and memorials and expect legislatures to build them. A bill will be introduced in the New York assembly to provide for a monument for Roscoe Conkling. The Utica Press very sensibly says, let Utica build such a monument.

This is Too Much.

Some people bite off more than they can masticate, but Mr. Blaine's late trouble seems to be that he bit off more breakfast cornbread than he could assimilate. Mr. Blaine should avoid doing anything of this kind in matters political.—Morning Advertiser.

How now? Colonel Cockerill's newspaper and Mr. Blaine's stomach going back on Minister William Walter Phelps' cornbread both at once?—New York Telegram.

Responsibility Somewhere.

The mine horror in the Indian territory may have been one of those accidents called "acts of God." It may have been impossible to foresee it, and every possible precaution to prevent it may have been taken. Nothing short of absolute proof that this was the case will absolve Jay Gould, the reputed owner of the mining property, from a fearful responsibility. Chicago Globe.

The After-Dinner Speaker's Opportunity.

Chauncey M. Depew has the opportunity of his life before him. He has accepted an invitation to preside at the Eisteddfod, Wilkesbarre, at the gathering of Welsh singers, and only needs to make a three-column speech in the Bardic language of the principality to go rolling down the ages as the Jones Ap Jones Depew of the Nineteenth century.—New York World.

Peffer's Quack Remedy.

Senator Peffer, of Kansas, has introduced a bill in congress providing for a loan by the general government of $100,000,000 to the people of Indiana. The Kansas senator does not make his first paternal bill apply to his own state probably for the same reason that a quack doctor tries new medicines on the dog first.—Kansas City Star.

No Wonder It Is Awful.

The bacillus of "grippe" has been discovered and is said to closely resemble the microbe streptococcus puogenes. It it is really anything like that no wonder it is such an awful disease.—Harrisburg Patriot.

No Trouble for Ammunition.

Secretary Tracy says our navy will not be in fighting trim for four years, which signifies nothing. We fight with our mouths in this country, and they are always in trim.—Bradford Era.

Conspiracy Against the Smoker.

There appears to be a conspiracy against the cigar smoker. First it was the McKinley bill, now a cigar label trust has been formed.—Chicago Post.

So?

As a matter of fact reciprocity has always been advocated by President Harrison and Secretary Blaine.—Organ.

THE GIRLS' FRIENDLY.

Anniversary Observed at Trinity Church Last Night.

Last evening was the second anniversary of this admirable society, and the event was celebrated by a supper, served by the associates—Miss Mary Hamm, Mrs. Scadding, Mrs. A. M. Johnston and Miss Ray Poulson, and furnished by the ladies of Trinity Parish. At one long table, reaching nearly the entire length of Trinity parlors were seated 56 young ladies, members of the society, and a prettier sight is seldom witnessed. Rev. Charles Scadding, who is greatly interested in the society, was present and delighted the young ladies with an address.

After being served with an elegant supper, the evening was sociably spent. Miss Bessie Gilbert and Miss Nettie Raitz gave much pleasure by recitations, nicely rendered.

The Girls' Friendly meets Tuesday nights for religion, entertainment and general improvement. The three central rules are "that the associates must be communicants of the Episcopal church (no such restriction being made as to members), and the organization of the society to follow as much as possible that of the church, being diocesan and parochial. Associates and members to contribute annually to the funds—the former at the rate of not less than five cents a month, and the latter of not less than one cent a month. No girl who has not borne a virtuous character, to be admitted as a members, such character being lost, the member forfeits her card.

ABOUT PEOPLE.

James Whitcomb Riley was in his younger days an enthusiastic and clever amateur actor. It is believed that had he gone on the stage permanently his career would have been famous.

Dr. James Field Spalding, the Cambridge Episcopal rector who has gone over to the Church of Rome, is small and slender. His hair is snow white, but his mustache is a deep black.

Mrs. Jackson says in her memoirs of her husband, Gen. "Stonewall" Jackson, that whenever she visited the general in camp he "spent all of his leisure time in playing with the baby."

A gossiping "man milliner," whose firm has supplied Princess Victoria May with some of her gowns, says that the future queen was allowed only $250 a year by her mother to dress on.

Miss Ray Frank spoke at a recent religious service held by Jews in Spokane Falls, Wash., and so interested her hearers that they determined to establish a permanent congregation there. It is seldom that a Jewess preaches in a synagogue.

To the late Sir George Bissell Airy, the Royal Observatory at Greenwich is indebted for the introduction of the altazimuth, the water telescope, the transit circle and the large equatorial, which was erected from his plans in 1859.

MENTIONED ON THE STREETS.

That the way to repair the St. Clair street bridge is to rebuild it.

That the harbor ought to be dredged. It will be money well invested.

That street-car blockades, especially at Perry street, are of too frequent occurrence.

That it is not a good soldier who loses his sword from his scabbard in broad daylight.

That the Bellevue bank has an excellent president in the person of George E. Pomeroy.

That there is much interest felt as to the success of the university extension lectures.

That the Saturday sewing classes in the ward schools are destined to become very popular.

That there is a lack of harmony in one of Toledo's prominent social organizations at present.

That another big gas well has been turned into the city line. Still wood and coal are being burned.

That the letter-carriers will eclipse all former efforts at their coming party on Washington's birthday.

That a big meeting of the Catholic Knights of Ohio will be held Sunday afternoon at Friendship hall.

That Flickinger secured what he wanted from Speaker Laylin—chairman of the committee on public works.

That Col. Smead's immediate friends may soon expect samples of Florida oranges, picked by his own hand.

That Judge Commager is home from Oklahoma to stay, which fact will be gratifying to the judge's many friends.

That the need of a clearing house is more apparent daily, but the banks do not appear to be anxious to inaugurate the movement.

That Speaker Laylin did not give Toledo a representation on the municipal corporations committee, which the city has always enjoyed.

That democrats are much grieved that it is not James E. Neal instead of John Sherman who goes to the United States senate.

That the bread and butter politicians do not relish Governor McKinley's admonition to the legislature to go slow in the ripping business.

That the joint session for the consideration of Reynold Voit's nomination as gas trustee has not yet been called, and the city is in a month's salary.

That local church papers are becoming quite numerous in Toledo, which saves pastors occupying half the time of each service making announcements.

That the Bee, as usual, was correct in its announcement that M. I. Wilcox would be president of the Merchants' National bank. Take the Bee for the news.

That Heller was hid away on the ditches and water courses committee in the house, when his desire was to find a place on the agriculture committee.

That Rhyne Opitz has grown seven pounds in happiness since the return of his side-partner, Judge Commager, to Toledo, and it is only a few weeks' growth at that.

That with the declaration of John Sherman's election to the senate, made today, Postmaster Brown and Collector Waldorf are willing to forgive the local fire-cracker politicians, provided they do not ask for recognition for a year of Sundays.

JOHN HOFFMAN.

Another of Toledo's Pioneers Passes Away.

Last evening at 7 o'clock John Hoffman breathed his last. Mr. Hoffman came to this city from Canada in 1856. He will be remembered by our older citizens as a manufacturer of soap, which business he carried on for many years, succeeding Mr. Coghlin, whose manufacturing plant he purchased. During the late years of his life he made extracts and toilet articles.

For many years he was a prominent member of the First Baptist church, in which he held various offices at different times. For the past seven years he has been connected with the Washington Street church. He passed his seventy-fifth birthday last October. He leaves to mourn his loss a widow and two daughters—Mrs. A. W. Hilliker, of Indianapolis, and Mrs. C. L. France, of this city.

The funeral will take place at the family residence, 813 Urbana street, on Friday afternoon at 2 o'clock.

FARMERS BEWARE

Of the Thieves and Sharks That Infest the Market.

A crowd of hucksters infest the Superior street market that are as bad as thieves, and they are continually making trouble for all who have dealing with them. The police receive complaint almost daily from the farmers who are the usual prey of these sharks, yet the wily huckster is generally "smooth" enough to get away.

The plan of these fellows is to buy a load of pork, grain or potatoes from the farmer and then by divers crooked means to cheat him on the weight or measurement.

They will fool the unsuspecting farmer under his very eyes, and do it in such a way that when the victim finally realizes that he has been duped there is no redress. The farmers should beware of these fellows, who usually work after the reputable gardeners have left the stand.

EMBEZZLED A RING.

Ed Sullivan was tried in police court this morning for embezzling a gold ring from Hood Brothers. Sullivan was employed by this company during the latter part of December and the evidence showed that he at once proceeded to beat his employers. He was fined $15, costs and 25 days.

TO HAVE NEW QUARTERS

Protestant Hospital Association Annual Meeting.

The Good Work Done in the Last Year.

Interesting Reports of Officers—Election of Members of the Board—A Bee Looks Through the Old Building.

Yesterday afternoon the annual meeting of the Protestant Hospital association was held in the present hospital building, the old Ketcham homestead. There were present besides the board a number of friends of the institution, 31 in all.

Mrs. J. N. Stevens, president of the board, was absent, owing to the serious illness of her husband, and Mr. Chauncey Buck called the meeting to order, and presided over its deliberations.

Devotional exercises were conducted by Rev. S. G. Anderson, after which the reports of officers were received. The following is

The Report of the Secretary.

To the President and Members of the Protestant Hospital Association:

The close of the seventeenth year of hospital work finds your board of trustees in a position which might to a cool, business man, measuring life by dollars and cents alone, seem venturesome, to say the least.

More than ever before the last year has convinced us of the absolute necessity for a new building, giving more room and better hospital facilities. More than once we have been obliged to turn our only reception room into a sick room, or else send away worthy cases, and from applications received we have felt assured that with more and better room we could accomplish more good and become more self-sustaining.

The plans for the new hospital were accepted last year, but the usual cry of "hard times" made the trustees hesitate about commencing so great an undertaking. In the early spring some of our energetic members started out to see what could be raised, and, though they met with kind words and good responses, it became certain that if the building was erected a very heavy debt must be faced.

It is true that, through the generous legacies of Mr. Finlay and Judge Collins the hospital, at some time in the future, may have money at its command, but now such funds are not available.

Remembering that considering the relative size and wealth of the city, the debt to be incurred is not much larger than that of $8,000, which was undertaken by the devoted band of workers at the commencement of the enterprise in 1874, trusting in the kind providence which has guarded our work in the past, and in the generosity of the people of Toledo, the die was cast, and a vote to build was taken in October.

In order that the foundation should have time to settle, the contracts which had been under consideration for some time were at once let, and to-day the foundation walls are laid, awaiting the beautiful superstructure, which we trust another year will add to the public buildings of our city, of which we may be justly proud.

This great responsibility has been undertaken after much earnest thought and consideration, and with great reluctance at again coming under the burden of debt, but with a firm conviction, strengthened by every visit to our present crowded quarters, that if the hospital work is done it must be done well and promptly.

More and more is the necessity for trained nurses and a training school forced upon us by the great difficulty we encounter in obtaining suitable assistants, and we trust the day is not far distant when we shall be able to furnish skillful nurses, not only for our own hospital, but for citizens who may desire them.

The receipts from patients the past year have not met running expenses within $500, which balance has been covered by the dividends from the Finlay fund. The city patients have been almost entirely removed from our care, still our beds have been seldom empty, and our private rooms often engaged before they were vacant.

We have had a larger number of patients than in any previous year, about one-sixth of whom were charity patients. For many of these cases, if you knew their stories, your warm sympathy would be aroused, and you would feel you were blessed in having contributed to their comfort. Vividly come to many of us the wan, emaciated face of one for months a constant sufferer, and her earnest words so often repeated, "You do not know how I thank the hospital." The work is not all anxiety and sorrow.

Again has our own circle been broken, and in the death of Mrs. J. D. Ford we mourned for one who, though only with us for a few short months, had endeared herself to us by her loving charity and efficient labors.

We have been glad to welcome many physicians, not connected with our regular staff, with their patients; and gratified to learn that the service of the hospital has been very satisfactory to them generally.

To the staff, who have been unceasingly attentive to the needs of their patients, much praise is due, and the gratitude of many who have been restored to health by their ministrations.

We are very fortunate in still retaining our estimable matron, Mrs. Roper, who, amid an unceasing round of annoyances and cares, has yet found time to comfort and encourage many a sad heart.

We desire to thank the newspapers of the city for the courtesies shown, especially those whose daily and weekly visits have cheered our inmates; and all friends who have so thoughtfully remembered the hospital by donations or otherwise; but above all we would acknowledge our gratitude to the Giver of all good for the many blessings we have experienced.

MRS. A. E. SCOTT, Secy.

The Treasurer's Report.

Mrs. H. H. Pierce, treasurer, gave a comprehensive report, of which the following is a summary:

Balance, Jan. 1, 1891.....	$3,019.42
Receipts During 1891.....	4,739.73
Total.....	7,759.15
Expenditures During 1891...	5,589.74
Balance, Jan. 1, 1892.....	$2,169.41

Mrs. W. B. Scott, chairman of the finance committee, gave a detailed report of the items for receipts and expenditures passing through her hands.

Dr. A. E. Sheble, chief of the staff of physicians, reported that the staff consisted of 12 homeopathic physicians, each of whom had charge of the hospital patients one month in the year. There were 15 patients in the hospital at the beginning of 1891; 112 received during the year; seven births during the year; total 134. There remained in the hospital at the close of 1891, 18 patients; discharged during the year, 102; died at the hospital, 14; total, 134.

Dr. Scheble dwelt upon the necessity of a new building, from the standpoint of a physician, and also specially emphasized the regulation of the hospital which permits any and all physicians to bring their patients to the hospital and there treat them, without any interference whatever with the case on the part of the hospital staff.

Later a member of the board of trustees stated to a Bee that when the new building was opened it was the intention to have a staff of physicians of the regular school, as well as one of the homeopathic school.

The reports were all adopted as read, and election to fill vacancies in the board caused by the expiration of the term of eight members, was entered on. On motion the eight members were all re-elected, and the board, as before, is composed of the following ladies:

Mesdames J. N. Stevens, F. B. Drake, G. W. Hart, A. E. Scott, H. H. Pierce, W. T. Rowsey, S. W. Nettleton, S. S. Lungren, Wm. Kline, E. P. Raymond, W. S. Thurstin, F. C. Chapin, M. C. Warne, W. B. Scott, C. W. Hussey, J. Dailey, A. L. Spitzer, J. G. Gould, S. C. Schenck, C. Cone, J. B. Ketcham, D. C. Baldwin, C. H. Pixley, E. Mitchell.

The efficient officers for the past year have been: President, Mrs. J. N. Stevens; first vice president, Mrs. G. W. Hart; second vice president, Mrs. Wm. Kline; secretary, Mrs. A. E. Scott; treasurer, Mrs. H. H. Pierce. At the meeting of the board next week, the officers of 1892 will be chosen.

At the conclusion of the routine business cheering words of God-speed to the association in its work were spoken by Mr. Buck, and by Revs. S. G. Anderson, D. M. Fisk, W. H. Sloan, after which the meeting adjourned.

The Present Building.

The basement of the present building is used for laundry work. The first floor contains the reception room, dining room, dispensary, bath room and the ward room, for male patients, in which are four beds. On this floor is also the First Presbyterian room, so called because it is furnished by that church.

On the second floor is the ward room for women, containing six beds, and several private rooms, of which one each is furnished by the Ashland Avenue Baptist church, Trinity, Central Congregational, Walnut Street German M. E., First Congregational and Church of Our Father (Unitarian). There is also one cot for which the furnishings are provided by a King's Daughter.

A traveling gentleman from New York, who was taken ill last fall at the Boody, and brought to the hospital as a paying patient, showed his grateful appreciation of the care taken of him by sending to the board, after his return home, a silver teapot, on which was engraved "Trinity Room, from a Former Occupant."

The third floor of the building is for the smokers' use, and miscellaneous purposes.

Everywhere it is manifest that the best possible use is being made of the old building, and on every hand it is evident that the association could, as the secretary reported, do better work and be more self-sustaining in larger quarters.

The foundations for the new building are in, just above the present hospital, and the contracts are let. The board hope that more churches, and other societies, will furnish rooms in this new building. The Union of Unions has already undertaken to furnish a "temperance room." It would seem well that the Masons, the Odd Fellows, the Knights of Pythias, the Elks, and other orders should furnish rooms.

The first thing to do, however, is for our public-spirited citizens to help get the new building up and ready for furnishing. When that is in use, the present hospital building will be turned into a "Home for Old Men," and some of its rooms set apart for a training school for nurses.

WILL NOT HUNT THE PUMAS.

The Hirssig Gun club held its annual meeting last night and the officers as outlined in the Bee yesterday were elected. Hunting interests generally discussed, and the proposition to join in the chase of the Liepsic pumas was voted down, as the dogs all had been trained on birds, and the boys were afraid the exercise might be to vigorous for them.

DREAMING OF HOME.

It comes to me often in silence,
When the firelight sputters low—
When the black, uncertain shadows
Seem wraiths of the long ago;
Always with a throb of heartache
That thrills each pulsive vein,
Comes the old, unquiet longing,
For the peace of home again.

I'm sick of the roar of cities,
And of faces cold and strange,
I know where there's warmth of welcome,
And my yearning fancies range
Back to the dear old homestead,
With an aching sense of pain,
But there'll be joy in the coming,
When I go home again.

When I go home again! There's music
That may never die away,
And it seems the hands of angels,
On a mystic harp, at play,
Have touched with yearning sadness,
On a beautiful broken strain,
To which is my fond heart wording—
When I go home again.

Outside of my darkened window
Is the great world's crash and din,
And slowly the autumn shadows
Come drifting, drifting in.
Sobbing, the night wind murmurs
To the splash of the autumn rain;
But I dream of the glorious greeting
When I go home again.

It will not be a success, unless it is held together for several years."

It may be generally known that we have a "keeper of the great seal" of the United States, but it is a fact. He does not bear this title—in truth, he bears no title, being simply a clerk in the state department, but for forty years he has had sole charge of the great seal of the United States, and the secretary of state himself can not induce that faithful old clerk to unlock the doors which guard that emblem of the country's liberties without a formal warrant signed by the president of the United States.

ASSIGNED.

Jacksonville, Ill., Jan. 13.—Keemer & Pike, grain dealers, have made an assignment for the benefit of creditors. Liabilities are placed at $125,000; assets not stated.

TAKEN FOR A CRANK.

A semi-fiendish delight often seems to possess people of strong nerves in sneering at those with weak ones. The irritability of the nervous hypochondriac is ridiculed as natural ill temper. The very genuine and distressing symptoms from which he suffers are made light of. "He" or "she is a crank!" is the cheerful sort of sympathy with which the nervous invalid meets from the unfeeling and the thoughtless. At the same time no complaint is more defined and real, none has a more easily explainable origin when it is chronic. Imperfect digestion and assimilation are always accompanied by nervous debility and anxiety. Build up the powers of assimilation and digestion with Hostetter's Stomach Bitters, and nervous symptoms, sick headaches and a generally feeble condition of the system are remedied. Remember that fearful ravages are produced by la grippe among weakly, nervous people. Hostetter's Stomach Bitters cures it, and prevents malaria, rheumatism and kidney complaint.

MINOR MICHIGAN MENTION.

La grippe is claiming a great many pioneers.

Ice in various parts of the state is 12 inches thick.

Iron Mountain will establish an illuminating gas plant.

David Wiley, a Grand Rapids newsboy, is missing.

Blissfield expects to have a new opera house in the spring.

Pennsylvania capitalists are drilling for oil and gas near Killmaster.

Outside physicians have been called to Bellevue to help fight the grip.

Niles has shied its castor into the arena for the county seat of Berrien county.

A. W. Simmon has dedicated a portion of the farm near Tipton for a race course.

Mrs. William Eppley has suddenly disappeared from her home in Kalamazoo.

Death has released Edward Neveau, serving a life sentence in state prison.

Edward Paine, a barber of Bronson, in 20 years has scraped $4,300 from the faces of his patrons.

George W. Westerman, a prominent business man of Adrian, was stricken with paralysis at his office.

A 2-year-old child of Marian Rowley, of Utica, was burned to death while the parents were away from home.

Petitions for franchises for a gas plant and two street railways to Benton Harbor are on file with the St. Joseph council.

A joint meeting of the State Farmers' institute and the State Dairymen's association will be held at St. John, Clinton county, January 26 and 27.

SKIN DISEASES.

What spectacle is more disgusting than that of a man or woman with a skin disease which shows itself in pimples or blotches on the hands, arms, face and neck? It is simply impure blood. See what Brandeth's Pill's did for a chronic case:

George Chapman, Pincening, Mich., says:

"For four years I was in the Mounted Infantry in the U. S. army, residing during that time principally in Texas. Almost all of that time I had a chronic skin disease, characterized by an eruption over the entire surface of my legs and thighs, arms and chest. The doctors termed it eczema. I had given up all hopes of ever being cured, when Brandreth's Pills were recommended to me. I concluded to try them, and I have thanked God daily since then that I did so. I used them for about three months, and by that time was completely cured, and have never had any trouble since."

NATIONAL GUARD.

Officers Elected for the Ensuing Year.

Columbus, O., Jan. 13.—The Ohio National Guard association held a meeting here at which the following officers were elected for the ensuing year:

President, Col. E. J. Pocock, adjutant general; first vice-president, Col. Charles Anthony, Third infantry; second vice-president, Lieut.-Col. Kennan, Fifth infantry; recording secretary, Lieut. L. B. Simonds, Fourteenth infantry; corresponding secretary, Capt. W. C. Wells, Seventeenth infantry; treasurer, Col. E. C. Brush, First artillery; chaplain, L. B. Moore, First artillery. Executive committee—Major William Day, First infantry; Major E. B. King, Sixteenth infantry. Legislative committee—Lieut.-Col. T. R. Fletcher, Fourteenth infantry; Col. Clein Deining, Col. Gyger, Eighth infantry; surgeon, J. A. Harrett, Third infantry; Col. C. B. Hunt, First infantry; Capt. V. R. Gregg, Eighth infantry.

AFTER INCENDIARIES.

Denison, Tex., Jan. 13.—Yesterday Mayor Tone issued a proclamation to the citizens of Denison calling their attention to the fact that within the past 30 days there had been 34 fires in the city, all of which had been the work of an incendiary. The mayor calls for a public meeting to consider what is best to be done for public safety.

MRS. GRAHAM'S

Cucumber and Elder Flower Cream

is not a cosmetic in the sence in which the term is popularly used, but permanently beautifies. It creates a soft, smooth, clear, velvety skin, and by daily use gradually makes the complexion several shades whiter. It is a constant protection from the effects of sun and wind and prevents sunburn and freckles, and blackheads will never come while you use it. It cleanses the face far better than soap and water, nourishes and builds up the skin tissues and thus prevents the formation of wrinkles. It gives the freshness, clearness and smoothness of skin that you had when a little girl. Every lady, young or old, ought to use it, as it gives a more youthful appearance to any lady and that permanently. It contains no acid, powder or alkali, and is as harmless as dew and as nourishing to the skin as dew is to the flower. Price $1.00. Ask your druggist for it.

REASON FOR THE FAILURE.

The Muncie Bank Had Been Robbed.

The Startling Statement is Made That a Shortage of Over Forty Thousand Dollars Has Been Found.

Williamsport, Pa., Jan. 13.—Dela Green, cashier of the failed Muncie bank and ex-bank examiner for this district, was arrested last night. Startling disclosures, showing that there was a shortage of over $40,000 in the bank's affairs, were made public during the evening by Bank Examiner Dangler. He says the affairs of the bank are in very bad shape and it looks as if the institution had been looted.

BRICE'S CAR SCORCHED.

Washington, Jan. 13.—The private car of Senator Calvin S. Brice was damaged by fire to the extent of $2,000 in the Pennsylvania railroad yards here. The fire originated in the kitchen and that end of the car was nearly destroyed. Senator and Mrs. Brice arrived from New York last evening and the fire broke out shortly after they left the car.

Don't Suffer—Catarrh Can be Cured

It commences with a cold in the head, soreness of the throat, hacking cough, hawking and spitting in the morning, raising lumps of matter which form in the throat, the nose passages stopped up, and difficulty of breathing, pain above and between the eyes. Catarrh also causes a very offensive smell, which the sufferers would not be aware of, but which is very disagreeable to those associating with them.

I want my remedies to reach everyone, both rich and poor. One box will cure any case. It makes no difference how long you have had catarrh.

R. Belton, Port Clinton, O.

Dear Sir—Yours received. My catarrh is better than for years before, though not cured. Had hoped to see you again soon, that I might get one box more, as mine is all gone. Feel sure that it would eventually cure me. Wishing you success, I am,

Respectfully yours,

Men and Women at the Opera House.

Hoyt's Effort at Legitimate Comedy—Cast for the Tar and Tartar.

Men and Women, the latest society comedy drama, by DeMille and Belasco, was splendidly presented at the Wheeler opera house last evening by one of the Frohman companies. The house was well filled with an appreciative audience and the applause was liberal.

The authors of Men and Women also wrote The Wife and the Charity Ball, but this latest piece is not quite up to the standard of their previous successes, yet it is a strong play with a good plot and situations even running to the melo-dramatic.

The company is large and is made up of clever people, well balanced and who handle their parts exceedingly well, both in the thrilling heavy parts and the lighter comedy.

Men and Women will be repeated this evening.

Midnight Bell.

At Wheeler's opera house to-morrow evening, Hoyt's most legitimate effort A Midnight Bell, will merrily toll for the benefit of lovers of refined merriment. That the presentation of Mr. Hoyt's pretty rural comedy will attract a large and fashionable audience, there can be no doubt if one is to judge by the demand for seats.

In A Midnight Bell the author claims nothing more than to win laughter for the homely, queer and ludicrous characters that are more or less common in New England villages. Mr. Hoyt himself is a native of a little town in New Hampshire and the type he reproduces in this piece he is thoroughly familiar with.

The play is in four acts and Mr. Hoyt frankly admits that the pretence of a plot is only for the purpose of holding the loose materials of mirth and absurdity together. The play is entirely different from many of his former productions. There is an absence of the noisy knock-about business that formed the leading features of A Brass Monkey, A Parlor Match, A Rag Baby, etc.

Splendid Cast.

The cast for the Toledo engagement of Tar and Tartar, which will be presented here Friday and Saturday evenings is as follows:

Muley Hassan, a sailor shipwrecked near the coast of Morocco....Digby Bell
Farina, a Circassian professional beauty.....Marion Manola
Alpaca, a Tartar, formerly a wife of Muley Hassan, now queen of the Sultan's harem.....Laura Joyce Bell
Taffeta, companion to Farina.....Josephine Knapp
Khartoum, master of the revels and royal purveyor of amusements....Chas. Wayne
Pajama, the court physician....Fred Frear
Yussuf, servant of Cardamon..Chas. Meyer
Lambrekin, a lady of the Harem....Hilda Rollins
Moket, Sultan of Morocco....Chas. H. Jones
Officer of the guard.....Kathel Kerr
Odellska.....Maud Hollins
Cardamon, a Bedouin chief....Hubert Wilke

ELOPED WITH A BLACK MAN

Strange Action of a Canton Young Lady.

She Was Wooed and Won by a Dusky Lover Who Has Made Away with His Prize.

Alliance, O., Jan. 13.—Elopements are common, but it is out of the ordinary line when a pretty white girl leaves a good home and casts her lot with a burly colored man.

The girl is Emma, the pretty 16-year old daughter of Mr. Ballamy, of Canton, and the colored man is Cal Hackett, who is possibly 28 years old.

The girl left her home last Saturday saying she would return Sunday; not returning then her parents made investigation and were horrified on learning their daughter was seen last with a colored man. It seems that the affection has been mutual between the two and lately they have been seen together quite often.

Just where the two are is not known, but search has been instituted as the parents are determined to rescue their daughter from the hands of her colored paramour. Hackett, if caught, will be prosecuted.

His Gig Assaulted by Three Men, Who Did Not Damage, but Aroused the Naval Dignity.

Washington, Jan. 13.—The following cable message from Commander Eavens, commanding the gunboat Yorktown, the only United States vessel now in Chilean waters, was made public this afternoon:

Valparaiso, January 9.

"Secretary of the Navy:

"Yesterday afternoon my gig, while lying off the landing place waiting, was stoned by three men in a crowd of bad characters. No one injured. I visited immediately the senior naval officer of Chile afloat and requested him to notify the police authorities that I demanded their efficient protection, and that if the offense was repeated I would take the matter in my own hands and protect my men with arms. Much regret was expressed by Chile's senior naval officer, who went at once to the police. To-day I have assurance that parties will be punished and protection given.

COAST DEFENSES.

They Will Cost Many Million Dollars.

Mr. Dolph Reports Favorably From the Committee the Bill Which Is to Make Us a Fighting People.

Washington, Jan. 13.—In the senate today Mr. Dolph reported favorably from the committee on coast defences his bills to provide for fortifications and other sea coast defences and to make an appropriation for the purchase of sites for fortifications.

The latter's bill simply appropriates $100,000,000 to be expended under the direction of the secretary of war in the procurement of necessary sites for fortifications and other defences.

The other bill makes more important provisions.

It aims to carry out the recommendations of the army fortifications board by providing fortifications at New York, San Francisco, Boston, the lake ports, Hampton Roads, New Orleans, Philadelphia, Washington, Baltimore, Portland, Me., ports in Narragansett Bay, Rhode Island, Key West, Charleston, S. C., Mobile, New London, Savannah, Galveston, Portland, Ore., Pensacola, Wilmington, S. C., San Diego, Portsmouth, N. H.; defences of Cumberland river at Fort Clinch; defence of ports of the Kennebec river at Forth Popham, New Bedford, Mass.; defences of ports on the Penobscot river, Maine.

The original appropriations for constructing these fortifications carried by the bill was $123,000,000, but the committee reduced the amount to $100,000,000. The bill is so amended by the committee that the appropriation will be available as follows:

For the current fiscal year, $10,000,000; instead of $21,000,000 originally provided, and each fiscal year hereafter for the period of 10 years, $9,000,000.

Nearly every pattern of 5/A *Horse Blanket* is imitated in color and style. GOOD ADVICE.

Letter From Thomas Jefferson to Thomas Jefferson Smith.

The Portrait of a Good Man—Rules for Practical Life—Jefferson at 73 Years on Life.

There have recently appeared a number of New Year's counsels from eminent persons, designed to promote correct, useful and happy living, says "Uncle Dudley" in the Boston Globe.

Thomas Jefferson was in the 82d year of his age when he made a contribution to what may be called the literature of good advice which it seems seasonable to reproduce at this time.

A fond parent, named Smith, residing in Washington, had named a boy for the great founder of the American democracy, and wrote to him to ask that he would furnish his namesake with a letter of advice for the future guidance of his life. The first democratic president of the United States granted this request and sent to the parents of the boy named in his honor the following letter:

Thomas Jefferson to Thomas Jefferson Smith.

This letter will, to you be as one from the dead. The writer will be in the grave before you can weigh its counsels. Your affectionate and excellent father has requested that I would address to you something which might possibly have a favorable influence on the course of life you have to run, and I, too, as a namesake, feel an interest in that course. Few words will be necessary with good dispositions on your part. Adore God. Reverence and cherish your parents. Love your neighbor as yourself, and your country more than yourself. Be just. Be true. Murmur not at the ways of Providence. So shall the life into which you have entered be the portal to one of eternal and ineffable bliss. And if to the dead it is permitted to care for the things of this world, every action of your life will be under my regard.

Monticelli, February 21, 1825.

With this letter Mr. Jefferson sent two enclosures. One of them he entitled "The portrait of a Good Man, by the Most Sublime of Poets, for Your Imitation." These lines, being from Brady and Tate's version of the fifteenth psalm of David, are as follows:

Lord, who's the happy man that may to Thy blest courts repair;
Not, stranger-like, to visit them, but to inhabit there?
'Tis he whose every thought and deed by rules of virtue moves;
Whose generous tongue disdains to speak the thing his heart disproves.
Who never did a slander forge, his neighbor's fame to wound;
Nor hearken to a false report, by malice whispered round.
Who vice, in all its pomp and power, can treat with just neglect;
And piety, though clothed in rags, religiously respect.
Who to his plighted vows and trust has ever firmly stood;
And though he promise to his loss, he makes his promise good.
Whose soul in usury disdains his treasure to employ;
Whom no rewards can ever bribe the guiltless to destroy.
The man who by this steady course has happiness insured.
When earth's foundations shake, shall stand, by Providence secured.

The other of the two enclosures with which the first American democrat completed counsels to his namesake was entitled "A Decalogue of Canons for Observation in Practical Life," and ran as follows:

1. Never put off till to-morrow what you can do to-day.
2. Never trouble another for what you can do yourself.
3. Never spend your money before you have it.
4. Never buy what you do not want, because it is cheap; it will be dear to you.
5. Pride costs us more than hunger, thirst and cold.
6. We never repent of having eaten too little.
7. Nothing is troublesome that we do willingly.
8. How much pain have cost us the evils which have never happened.
9. Take things always by thefr smooth handle.
10. When angry, count ten before you speak; if very angry, a hundred.

These may be taken as Thomas Jefferson's contribution to the extensive literature of good advice on daily life and conduct, and no better one has, we think, ever found its way into print. It is worth remembering, too, that the Father of Democracy in this country wrote out these counsels and maxims at the close of a life in which he had personally applied them and tested their value in his own experience.

Very late in the evening of the life thus guided he wrote to his friend, John Adams, a most cheerful retrospect of it. "You ask," he said, "if I would agree to live my 70, or rather 73 years over again? To which I say yea. I think with you that it is a good world on the whole; that it has been framed on a principle of benevolence, and more pleasure than pain dealt out to us. There are, indeed (who might say nay), gloomy and hypochondriac minds, inhabitants of diseased bodies, disgusted with the present, and despairing of the future; always counting that the worst will happen, because it may happen. To these I say, how much pain have cost us the evils which have never happened! My temperament is sanguine. I steer my bark with Hope in the head, leaving Fear astern. My hopes, indeed, sometimes fail; but not oftener than the forebodings of the gloomy."

HE GAVE IT TO A NEWSBOY.

"One of the shrewdest pickpockets Chicago ever produced told me a story the other day which will bear repeating," said a member of the Central detail recently.

"'A few years ago I sauntered into a saloon on Halsted street one night to get a glass of beer. I was flush just then and had about decided to quit business for good. While I was standing at the bar a couple of pompous, well-dressed and apparently wealthy gentlemen got into a discussion about pickpockets and highwaymen. One of them, who flashed a big watch chain with an enormous fob, remarked that he had no fear whatever that anyone would molest him, because he rarely carried with him anything of great value except his watch. And the watch, he added, would do the thief no good, because it was too plainly marked to be disposed of readily, as it bore his monogram in diamonds on the case and was well known about town.

"'Well, after listening to that sort of talk for a few minutes I found I had an uncontrollable desire to take a look at that monogram. I left the place and took my station just outside the door. As the two men left the place I attempted to enter. We met right in the doorway, and when we untangled ourselves I was inside the saloon, and the watch was in my pocket. I had fully made up my mind to examine the timepiece at my leisure and send it back to the owner with a friendly bit of advice about talking too much in public places. But I didn't do it after all.'

"'Why not?'

"'Because I gave it to a newsboy. It was a 'Waterbury,' and the hour hand was gone.'"—Chicago Mail.

THE SUB-TREASURY PLAN.

Colonel Livingston Smiled and Winked the Other Eye.

A correspondent from Forsyth, Ga., writes to the Macon Telegraph the following talk with Col. L. F. Livingston, some time ago, relating to the sub-treasury:

It was something over two months since that Col. Livingston, just from Camilla, where he had delivered an alliance speech, was unfolding to a party of us in the smoking car his views for the financial relief of the people.

"Colonel," said I, "your president, Mr. Polk, declared in a recent speech that the St. Louis sub-treasury bill—the warehouse bill—the one on which you won your election and by which the six Georgia congressmen were defeated, was now withdrawn, and would not be presented to the Fifty-second congress."

"Of course," said Col. Livingston, "the Ocala convention killed the St. Louis warehouse bill."

"But, colonel, our farmers do not understand it. They still look forward to the St. Louis scheme.

"All well-posted alliance men understand it."

"What is your substitute?"

"The object of the alliance now is to get the government to establish a sub-treasury bank in each state where the people can borrow money at a low rate of interest on lands or other good securities. This is now something better."

"This is quite a different proposition from the St. Louis warehouse bill—the one which our congressmen were required to accept or step down and out from congress."

"Certainly it is," answered the colonel. "Why was the St. Louis bill withdrawn and the Ocala idea substituted?"

"Because, on due consideration, we regarded the St. Louis bill impracticable and not suited to our people."

"Well, Colonel," if that be true, you pay a high compliment to the Georgia congressmen, who saw at a glance they were statesmen enough to see that the bill was impracticable—and for their statesmanship and candor they were deposed and declared enemies of the farmer. Don't you think you owe an apology to the Georgia congressmen who were made to walk the plank?"

"I am not of the apologizing kind," replied the colonel, smiling blandly, as he winked the other eye.

A FABLE AND A MORAL.

Did you ever chance to spend a season on a farm? Did it ever happen to you, along with other delights, to be invited to ride after an old horse, whose spirits and front feet were all (supposedly) in the grave? Were you ever amazed by being run away with by such an antiquated steed, tipped over an embankment and picked up for dead, while the old horse skipped to the covert of the homestead barn at a 2:40 gait with the reckless abandon of a clover-fed colt? And in talking the matter over with the good farmer afterward, did he never shake his head and affirm that for right down danger and reckless deviltry there was nothing equal to an old horse "once it felt its oats and got its blood up." I don't know why the incident and the comparison come back to me to-day as I sit here and watch the giddy behavior of a person of mature years whose coquettish actions would far better suit a lass of 16. I can imagine many unpleasant things in this world which I have never seen, but in all the realm of the unknown and the unknowable there can be nothing much more pitiful than a coltish old person.—Chicago Herald.

ARE THEY ALL CHRISTIANS?

If we sum up the encouragements of hope, founded on the success of Christian work, the figures are as follows:

Three centuries after Christ there were 5,000,000 Christians.

Eight centuries after Christ there were 50,000,000 Christians.

Ten centuries after Christ there were 50,000,000 Christians.

Fifteen centuries after Christ there were 100,000,000 Christians.

Eighteen ceturies after Christ there were 174,000,000 Christians.

Now there are 450,000,000 Christians.

The followers of the three religions, Confucianism, Buddhism and Taoism, all combined, are less in number than the Christians alone.

Including the latest division of Africa among the European powers, about four-fifths of the land of the world is under Christian control.—United States Army Chaplain.

MARRIED UNDER DIFFICULTIES.

A. M. Phillips and Millie Burns, of Coleridge, Neb., had to visit three states before they were married.

The couple first went to Hartington to be united, but the bride was too young to meet the requirements of the Nebraska law. On Sunday they started for Yankton, they being assured that they could meet with no obstacles in a state where it is so easy to sever the marriage relations. Arrived at the Missouri river they found the bridge had been washed out only an hour before. It was night before they finally found a boatman to take them to the South Dakota bank, where they found themselves two miles above the town in a willow thicket. Late at night they reached town and were obliged to wait till morning before calling on a justice of the peace. On Monday they learned to their disgust that the laws of South Dakota, although more liberal than those of Nebraska, did not sanction the marriage of one so young as the would-be bride. They were told to go to Iowa, which they did, and there met with better success.—Minneapolis Tribune.

SUPPOSING, NOW, YOU TRY.

The following is a list of the words which have recently been mispronounced in the course of an extended contest at various school teachers' conventions throughout the country. In one instance not less than fourteen hundred school teachers failed in properly pronouncing the following words. It is a test, by the way, which very few men of wide study and great precision of speech could withstand:

Gladiolus, grimace, grimy, gyve, halibut, haunt, homage, laundry leisure, naively, swarthy, slough, sough, spinach, condolence, cassimere, cognomen, prediliection, shough, senile, rapine, conjure, construe, contumely, clique, maritime, recess, resume, sacrifice, vizor, swaths, brooch, exile, irrefragable and garrulity.—New York Truth.

IN PARIS COURTS.

Paris courts are likely soon to hear the echo of the recent conflict in Chile. Last February three admirers of Balmaceda ordered in Paris three umbrellas for him and his family. Each umbrella was to have a solid, massive gold handle, and was to cost $300. All three were shipped in August, that they might be presented this Christmas. When they arrived at Santiago with about $500 in freight and tariff charges due on them, Balmaceda's star had faded, so that his three friends decided to make no presents to his family and refused to pay the bill. The manufacturer will sue for $1,400.—New York Sun.

MYSOST.

The Norwegians make of goat's milk a brown cheese called "mysost," which does not look very inviting to a foreigner. It is made in the shape of little bricks. A native, Dr. Julius Nicholyson, was sending some Norwegian delicacies to a friend in Germany, and, among other he put in a piece of mysost. His friend wrote and thanked him for the salmon, etc., and then continued: "The soap is very nice, but we find great difficulty in making the lather." This was the cheese.—New York Press.

An interesting experiment in the use of electricity as a motive power is to be made in the operation of a flour mill at St. Paul. The mill is a new one which has just been built on the site of the St. Paul Roller, which was burned two years ago, and is under the direction of Mr. Kingsland Smith. The water of the Mississippi river is to be used for the generation of the electricity, and Mr. Smith thinks that he has discovered an economical way of applying this power to his machinery. The success of the experiment means that all the great flour mills of St. Paul and Minneapolis will adopt the same power. Electricity is undoubtedly the motive power of the future, and with the investigation and experiments that are now being undertaken the next two or three years must witness a wide application of it to manufacturing enterprises.

The new census of the Penobscot Indian tribe shows the tribe to number 386, a gain of nine during the year. They raised 3,500 bushels of potatoes in 1891.

ASHES ON THE SLIDE.

When Jim and Bill and I were boys a many years ago,
How gayly did we use to hail the coming of the snow!
Our sleds, fresh painted, red and with their runners round and bright,
Seemed to respond right briskly to our clamor of delight
As we dragged them up the slippery road that climbed the rugged hill
Where perched the old frame meetin' house, so solemn like and still.

Ah, consting in those days—those good old days—was fun indeed!
Sleds at that time, I'd have you know, were paragons of speed!
And if the hill got bare in spots, as hills will do, why, then
We'd haul on ice and snow to patch those bald spots up again;
But, oh! with what sad certainty our spirits would subside,
When Deacon Frisbee sprinkled ashes where we used to slide!

The deacon he would roll his eyes and gnash his toothless gums
And clear his skinny throat and twirl his saintly, bony thumbs
And tell you: "When I wuz a boy, they taught me to eschew
The goodless, ribald vanities which modern youth pursue!
The pathway that leads down to hell is slippery, straight and wide,
And Satan lurks for prey where little boys are wont to slide!"

Now, he who ever in his life had been a little boy
Will not reprove me when he hears the language I employ
To stigmatize as wickedness the deacon's zealous spite
In interfering with the play wherein we found delight,
And so I say, with confidence, not unalloyed of pride:
"Gol durn the man who sprinkles ashes where the youngsters slide!"

But Deacon Frisbee long ago went to his lasting rest,
His money well invested in farm mortgages out West;
Bill, Jim and I, no longer boys, have learned through years of strife
That the troubles of the little boy pursue the man through life,
That here and there along the course wherein we hoped to glide,
Some envious hand has sprinkled ashes just to spoil our slide!

And that malicious, envious hand is not the deacon's now,
Grim, ruthless Fate! that evil sprite no other is than thou!
Riches and honor, peace and care come at thy beck and go,
The soul, elate with joy to-day, to-morrow writhes in woe!
And till a man has turned his face unto the wall and died
He must expect to get his share of ashes on his slide!

—Eugene Field in Chicago News.

There are at present fifty-nine cardinals of the Catholic church, including six cardinal bishops, forty-seven priests and seven deacons, all of whom, except three cardinal priests and seven deacons are patriarchs, archbishops or bishops. A French experimenter has tested the strength of 50 robust men and 50 healthy women, all of the middle class of society and between 25 and 45 years of age. The strongest man was able to give with the right hand a pressure equivalent to 187 pounds, and the weakest one of 88 pounds. The short men were nearly as strong as the tall, the average difference being less than seven pounds. The force exerted by the strongest woman was 97 pounds, and that by the weakest was but 35 pounds, while the average was 72 pounds.

We can not help being impressed by external influences, and if a man in applying for a lucrative appointment doesn't put on his best coat he is a fool. If women who are ambitious for their husband's advancement would recognize this, they would never allow their "inferior half" to go forth in the threadbare suit, but would see that he was clad in garments as good as the family purse would allow, even if she had to sacrifice some small luxuries at home. The chances are ten to one her farsighted policy would bring its reward in time.
